

# SCREW HEAD FILES - FRIEDR. DICK GMBH SCREW HEAD FILE #11, .043"

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Files](#)

## Cut New Or Recut Old Slots; The Right Way

High-quality, steel files designed for one purpose only to cut perfectly square screw slots every time. #7, #9, and #11 files cover the most common slot sizes. Smooth-sided to cut only on the edge. Will not widen the slot as it deepens, or damage the screw head. Cleans up marred slots on hard to replace screws or cuts slots in new screws. Use with Needle File Handles. These files are very thin for precise cutting. Sorry, cannot guarantee against bending or breakage. Sold individually or as a set.

# Safety Instruction Guide for SCREW HEAD FILES

## FRIEDR. DICK GMBH SCREW HEAD FILE #11, .043"

### Introduction

Thank you for choosing the SCREW HEAD FILES by FRIEDR. DICK GMBH. These highquality steel files are designed to create perfectly square screw slots. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product.

### General Safety Guidelines

- Always use the files in accordance with the manufacturer's instructions.
- Inspect files before use for any signs of damage or wear.
- Store files in a safe place, out of reach of children and vulnerable individuals.
- Do not use files for any purpose other than intended.
- Follow local regulations for the disposal of metal files.

### Specific Safety Precautions for Use

- Ensure you are using the correct file size for the screw slot you are working on.
- Use Needle File Handles to maintain a firm grip on the files during use.
- Avoid applying excessive force while using the files to prevent bending or breakage.
- Wear safety glasses to protect your eyes from metal filings and debris.
- Keep your hands and other body parts away from the cutting edge while using the files.

### Instructions for Installation and Usage

#### 1. Preparation:

- Select the appropriate file size (#7, #9, or #11) based on the screw slot dimensions.
- Ensure the work area is clean and welllit.

#### 2. Using the File:

- Insert the file into a Needle File Handle for better control.
- Position the file at a 90degree angle to the screw head.
- Apply light pressure and move the file in a single direction to cut the slot.
- Avoid moving the file back and forth, as this can damage the screw head.

#### 3. After Use:

- Clean the file with a brush to remove any metal filings.
- Store the file in a protective case or pouch to prevent damage.

### Disposal Instructions

- Dispose of any damaged files in accordance with local waste regulations for metal products.
- Recycle the files if possible, following local recycling guidelines.

### Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the EU contact point for product safety.

By following these safety instructions, you can ensure a safe and effective experience while using the SCREW HEAD FILES by FRIEDR. DICK GMBH. Always prioritize safety and report any unsafe products or incidents to the relevant authorities. Thank you for your attention to these important safety guidelines.
