## Two Precision Styles For Perfect Custom Slots

FRIEDR. DICK GMBH SCREW SLOT FILES The FRIEDR. DICK GMBH Screw Slot Files are precision-engineered tools designed specifically for gunsmiths and metalworkers who require the creation or restoration of perfectly square screw slots. These high-quality steel files are essential for achieving professional-grade results in firearm customization and repair. Description and Features: These screw slot files are available in six sizes and two distinct styles to accommodate a variety of slot dimensions, including the super-thin European slots. The two styles are: Joint Files: These files cut only on the edges and are designed to deepen the slot without widening it, ensuring precision in slot depth. Equalling Files: These are used to clean up the slot sides and square the bottom, providing a uniform and professional finish. Each file measures 5-5/8 inches (14.3 cm) in length, making them manageable for detailed work. The availability of matched, same-size pairs (one Joint and one Equalling file) allows for comprehensive slotting tasks. Additionally, a Master Screw Slot Set is offered, containing all twelve files to cover any slotting job. Specifications: Length: 5-5/8 inches (14.3 cm) Styles: Joint and Equalling Sizes: Six sizes available Material: High-quality steel Customer Insights: Customers of the FRIEDR. DICK GMBH Screw Slot Files appreciate their precision and the variety of sizes and styles available, which accommodate a wide range of screw slotting needs. The high-quality steel construction ensures durability, and the specialized designs of the Joint and Equalling files allow for meticulous slot creation and restoration. Incorporating the FRIEDR. DICK GMBH Screw Slot Files into your gunsmithing toolkit ensures you have the precise tools necessary for creating and restoring screw slots with professional accuracy.

NOTE: These files are very thin and easily bent or broken. Sorry, cannot guarantee.

However, like all tools, they must be used safely to ensure the wellbeing of the user. This guide provides important safety instructions in compliance with the EU General Product Safety Regulation (GPSR).

## **General Safety Guidelines**

- Ensure that you read and understand all instructions before using the files.
- Always use the files in accordance with their intended purpose.
- Keep the files out of reach of children and vulnerable individuals.
- Inspect the files for any damage before use. Do not use if bent or broken.
- Store the files in a safe place when not in use to prevent accidents.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform regularly.

## **Specific Safety Precautions for Use**

- Use protective eyewear to protect your eyes from debris.
- Wear gloves to prevent injuries from sharp edges.
- Ensure your work area is clean and welllit to avoid accidents.
- Do not apply excessive force when using the files; let the tool do the work.
- Avoid using the files on materials for which they are not intended.
- Do not use the files if you are under the influence of drugs or alcohol.

## **Instructions for Installation and Usage**

- **Preparation:**

- Ensure that your work surface is stable and secure.
- Gather all necessary tools and materials before starting your project.

- **Using the Joint File:**

- Hold the Joint File firmly by the handle.
- Position the file at the desired angle against the screw slot.
- Apply gentle pressure to cut along the edges without widening the slot.

- **Using the Equalling File:**

- After using the Joint File, take the Equalling File.
- Hold it in the same manner and position it along the sides of the slot.
- Use the Equalling File to clean up the slot sides and square the bottom.

- **Finishing Up:**

- After use, clean the files to remove any debris.
- Store the files in their designated storage to prevent damage.

## **Disposal Instructions**

- Dispose of any damaged files according to local regulations.
- Do not throw files in regular trash if they are broken; check for recycling options.
- Ensure that any discarded files are out of reach of children.
