## Two Precision Styles For Perfect Custom Slots

FRIEDR. DICK GMBH SCREW SLOT FILES The FRIEDR. DICK GMBH Screw Slot Files are precision-engineered tools designed specifically for gunsmiths and metalworkers who require the creation or restoration of perfectly square screw slots. These high-quality steel files are essential for achieving professional-grade results in firearm customization and repair. Description and Features: These screw slot files are available in six sizes and two distinct styles to accommodate a variety of slot dimensions, including the super-thin European slots. The two styles are: Joint Files: These files cut only on the edges and are designed to deepen the slot without widening it, ensuring precision in slot depth. Equalling Files: These are used to clean up the slot sides and square the bottom, providing a uniform and professional finish. Each file measures 5-5/8 inches (14.3 cm) in length, making them manageable for detailed work. The availability of matched, same-size pairs (one Joint and one Equalling file) allows for comprehensive slotting tasks. Additionally, a Master Screw Slot Set is offered, containing all twelve files to cover any slotting job. Specifications: Length: 5-5/8 inches (14.3 cm) Styles: Joint and Equalling Sizes: Six sizes available Material: High-quality steel Customer Insights: Customers of the FRIEDR. DICK GMBH Screw Slot Files appreciate their precision and the variety of sizes and styles available, which accommodate a wide range of screw slotting needs. The high-quality steel construction ensures durability, and the specialized designs of the Joint and Equalling files allow for meticulous slot creation and restoration. Incorporating the FRIEDR. DICK GMBH Screw Slot Files into your gunsmithing toolkit ensures you have the precise tools necessary for creating and restoring screw slots with professional accuracy.

NOTE: These files are very thin and easily bent or broken. Sorry, cannot guarantee.

# **Safety Instruction Guide for SCREW SLOT FILES FRIEDR. DICK GMBH SCREW EQUALLING FILE, #6, (.040)**

## **Introduction**

Thank you for choosing the SCREW SLOT FILES by FRIEDR. DICK GMBH. These precision tools are designed to help you create and refine screw slots with accuracy. However, to ensure your safety and the effective use of these files, it is essential to follow the safety instructions outlined in this guide.

## **General Safety Guidelines**

- Always read and understand the instructions before using the files.
- Use the files only for their intended purpose to avoid accidents or injuries.
- Keep the files out of reach of children and vulnerable individuals.
- Inspect the files for damage before each use. Do not use if bent or broken.
- If you notice any unusual performance or damage, discontinue use immediately.
- Report any unsafe products or accidents to local authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

## **Specific Safety Precautions for Use**

- Wear safety glasses to protect your eyes from metal filings and debris.
- Use gloves to protect your hands from sharp edges and to improve grip.
- Avoid excessive force when using the files to prevent bending or breaking.
- Ensure a stable work surface to maintain control while filing.
- Do not use the files near flammable materials or in wet conditions.
- Always store the files in a safe place when not in use to prevent accidents.

## **Instructions for Installation and Usage**

### **1. Preparation:**

- Gather all necessary tools and materials before starting your project.
- Ensure your work area is clean and welllit.

### **2. Using the Joint File:**

- Hold the Joint File by the handle firmly.
- Position the file at the edge of the screw slot.
- Move the file back and forth gently to cut the slot edges without widening the slot.

### **3. Using the Equalling File:**

- After using the Joint File, switch to the Equalling File.
- Hold the Equalling File similarly by the handle.
- Insert the file into the slot to clean up the sides and square the bottom.
- Use light, steady pressure to achieve a smooth finish.

### **4. PostUse Care:**

- Clean the files after use to remove any metal filings or debris.

- Store the files in a protective case or pouch to prevent damage.

## **Disposal Instructions**

- Dispose of any damaged files in accordance with local regulations.
- Do not throw files in regular household waste. Check for recycling options in your area.

## **Contact Information for Further Support**

For any inquiries regarding safety or product information, please refer to the manufacturer's website or customer service.

Thank you for prioritizing safety while using the SCREW SLOT FILES by FRIEDR. DICK GMBH. Your careful adherence to these guidelines will help ensure a safe and effective filing experience.
