Two Precision Styles For Perfect Custom Slots

FRIEDR. DICK GMBH SCREW SLOT FILES The FRIEDR. DICK GMBH Screw Slot Files are precision-engineered tools designed specifically for gunsmiths and metalworkers who require the creation or restoration of perfectly square screw slots. These high-quality steel files are essential for achieving professional-grade results in firearm customization and repair. Description and Features: These screw slot files are available in six sizes and two distinct styles to accommodate a variety of slot dimensions, including the super-thin European slots. The two styles are: Joint Files: These files cut only on the edges and are designed to deepen the slot without widening it, ensuring precision in slot depth. Equalling Files: These are used to clean up the slot sides and square the bottom, providing a uniform and professional finish. Each file measures 5-5/8 inches (14.3 cm) in length, making them manageable for detailed work. The availability of matched, same-size pairs (one Joint and one Equalling file) allows for comprehensive slotting tasks. Additionally, a Master Screw Slot Set is offered, containing all twelve files to cover any slotting job. Specifications: Length: 5-5/8 inches (14.3 cm) Styles: Joint and Equalling Sizes: Six sizes available Material: High-quality steel Customer Insights: Customers of the FRIEDR. DICK GMBH Screw Slot Files appreciate their precision and the variety of sizes and styles available, which accommodate a wide range of screw slotting needs. The high-quality steel construction ensures durability, and the specialized designs of the Joint and Equalling files allow for meticulous slot creation and restoration. Incorporating the FRIEDR. DICK GMBH Screw Slot Files into your gunsmithing toolkit ensures you have the precise tools necessary for creating and restoring screw slots with professional accuracy. NOTE: These files are very thin and easily bent or broken. Sorry, cannot guarantee.

Safety Instruction Guide for SCREW SLOT FILES

FRIEDR. DICK GMBH SCREW FILE PAIR, #5, (.032)

Introduction

Thank you for choosing the SCREW SLOT FILES from FRIEDR. DICK GMBH. These precision tools are designed for making screw slots with accuracy and care. This guide provides essential safety instructions to ensure safe and effective use of these files. Please read this document carefully before using the product.

General Safety Guidelines

- Always use the files in accordance with the manufacturer's instructions.
- Keep files out of reach of children and vulnerable individuals.
- Inspect files before use to ensure they are not damaged or bent.
- Avoid using excessive force when cutting to prevent breakage.
- Store files in a safe place to avoid accidents and damage.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform regularly.

Specific Safety Precautions for Use

- **Handling:**
 - Use both hands when handling files to maintain control.
 - Wear protective gloves to avoid cuts and injuries.
- **Cutting:**
 - Only cut on the edges of the files to prevent widening the slot.
 - Ensure the workpiece is securely held to avoid slipping.
- **Bending:**
 - Be cautious as files are thin and can be easily bent or broken.
- **Cleaning:**
 - Use a soft brush to clean the files after use. Do not use abrasive materials.

Instructions for Installation and Usage

- **Preparation:**
 - Ensure your workspace is clean and welllit.
 - Gather all necessary tools and materials before starting.
- **Using the Joint File:**
 - Use the Joint File to cut the initial slot.
 - Apply gentle pressure along the edges and avoid forcing the file.
- **Using the Equalling File:**

- After the slot is cut, use the Equalling File to clean the sides and square the bottom.
- Move the file smoothly and evenly for best results.

- **Storage:**

- Store files in their original packaging or a protective case to prevent damage.
- Keep files in a dry place to avoid rust and corrosion.

Disposal Instructions

- Dispose of any damaged files responsibly.
- Follow local regulations for the disposal of metal tools.
- Do not dispose of files in regular household waste if they are broken or unusable.
