Two Precision Styles For Perfect Custom Slots

FRIEDR. DICK GMBH SCREW SLOT FILES The FRIEDR. DICK GMBH Screw Slot Files are precision-engineered tools designed specifically for gunsmiths and metalworkers who require the creation or restoration of perfectly square screw slots. These high-quality steel files are essential for achieving professional-grade results in firearm customization and repair. Description and Features: These screw slot files are available in six sizes and two distinct styles to accommodate a variety of slot dimensions, including the super-thin European slots. The two styles are: Joint Files: These files cut only on the edges and are designed to deepen the slot without widening it, ensuring precision in slot depth. Equalling Files: These are used to clean up the slot sides and square the bottom, providing a uniform and professional finish. Each file measures 5-5/8 inches (14.3 cm) in length, making them manageable for detailed work. The availability of matched, same-size pairs (one Joint and one Equalling file) allows for comprehensive slotting tasks. Additionally, a Master Screw Slot Set is offered, containing all twelve files to cover any slotting job. Specifications: Length: 5-5/8 inches (14.3 cm) Styles: Joint and Equalling Sizes: Six sizes available Material: High-quality steel Customer Insights: Customers of the FRIEDR. DICK GMBH Screw Slot Files appreciate their precision and the variety of sizes and styles available, which accommodate a wide range of screw slotting needs. The high-quality steel construction ensures durability, and the specialized designs of the Joint and Equalling files allow for meticulous slot creation and restoration. Incorporating the FRIEDR. DICK GMBH Screw Slot Files into your gunsmithing toolkit ensures you have the precise tools necessary for creating and restoring screw slots with professional accuracy. NOTE: These files are very thin and easily bent or broken. Sorry, cannot guarantee.

Safety Instruction Guide for SCREW SLOT FILES FRIEDR. DICK GMBH SCREW FILE PAIR, #6, (.040)

Introduction

Thank you for choosing the SCREW SLOT FILES FRIEDR. DICK GMBH SCREW FILE PAIR. These files are designed for precision work in creating and maintaining screw slots. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always use the files in accordance with the manufacturer's instructions.
- Ensure that your work area is clean and free from hazards.
- Keep files out of reach of children and vulnerable individuals.
- Inspect files before use for any signs of damage or wear.
- Report any unsafe products and accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- These files are very thin and can easily bend or break. Handle with care to avoid injuries.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, to protect against debris and sharp edges.
- Avoid applying excessive force when using the files to prevent breakage and maintain precision.
- Always cut away from your body to reduce the risk of injury.
- Do not use the files for purposes other than intended, as this may lead to accidents or damage.

Instructions for Installation and Usage

1. Preparation:

- Ensure your workpiece is securely clamped or held in place.
- Select the appropriate file size and style for your specific task.

2. Using the Joint File:

- Position the Joint File at the desired angle to the slot.
- Apply light pressure and move the file along the edges of the slot, cutting only on the edges.
- Avoid widening the slot as you deepen it.

3. Using the Equalling File:

- After using the Joint File, switch to the Equalling File.
- Use the Equalling File to clean up the sides of the slot and square the bottom.
- Maintain a steady hand to ensure even results.

4. PostUse Care:

- Clean the files after use to remove debris and prevent corrosion.
- Store files in a safe, dry place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any broken or damaged files in accordance with local regulations.
- Recycle files where possible. Check with your local recycling program for guidelines on metal disposal.
