## Super Strength Box Joints For Maximum Precision

Perhaps no other tool on the bench is required to do more jobs than the Gunsmith's pliers - everything from getting up inside a small action and inserting a spring the size of a small hair, to holding red-hot rods while being formed. Because of the extremely rough, to extremely delicate, work done with pliers, just being tools isn't enough; they must be instruments. These pliers are manufactured by a company that has long specialized in QUALITY - respected for generations. They are of strong box construction. This gives the pliers greater strength and prevents loosening of the joints when doing twisting and turning operations. Finish: Polished steel jaws and joints. Each tool is guaranteed for quality and service. The manufacturer's slogan since 1824 has always been, "First Quality and Then Price". This manufacturing policy is of greater importance to the craftsman today than ever before.

# **Safety Instruction Guide for GERMAN MADE SPECIAL GUNSMITHING PLIERS NO. 153 STRAIGHT NEEDLE**

## **Introduction**

Thank you for choosing the GERMAN MADE SPECIAL GUNSMITHING PLIERS NO. 153 STRAIGHT NEEDLE by FRIEDR. DICK GMBH. This safety instruction guide provides essential information for the safe use, handling, and disposal of these pliers, ensuring compliance with the EU General Product Safety Regulation (GPSR).

## **General Safety Guidelines**

- Ensure that you are familiar with the tool before use.
- Always inspect the pliers for damage or wear before each use.
- Keep the pliers clean and dry to prevent rust and maintain functionality.
- Store the pliers in a safe place, out of reach of children and vulnerable individuals.
- Use the pliers only for their intended purpose to avoid accidents and injuries.
- Report any unsafe conditions or accidents to the relevant authorities.

## **Specific Safety Precautions for Use**

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the pliers.
- Avoid using the pliers on live electrical circuits or in wet conditions.
- Do not use excessive force when handling delicate components; this may damage the tool or the components.
- Be cautious when handling hot materials; allow them to cool before gripping with the pliers.
- Ensure your hands are dry and free from grease or oil to maintain a secure grip on the pliers.
- Keep fingers and other body parts away from the jaws of the pliers during use to prevent pinching or injury.

## **Instructions for Installation and Usage**

- To use the pliers effectively:
  1. Identify the task you need to perform and select the appropriate type of grip.
  2. Position the pliers over the item you wish to grip or manipulate.
  3. Squeeze the handles of the pliers firmly but gently to engage the jaws.
  4. Perform the necessary action, such as twisting or turning, while maintaining a firm grip on the pliers.
  5. Release the handles to disengage the jaws and remove the pliers from the work area.
- After use, clean the pliers with a soft cloth to remove any debris or residue.
- Store the pliers in a designated tool area to prevent damage and ensure safety.

## **Disposal Instructions**

- Dispose of the pliers responsibly at the end of their life cycle.
- If the pliers are damaged or no longer functional, consider recycling them if local facilities allow.
- Do not dispose of the pliers in regular household waste.
- Follow local regulations for the disposal of tools and metal items.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the GERMAN MADE SPECIAL GUNSMITHING PLIERS, please refer to the manufacturer's contact information provided with your product. It is important to have access to support for any questions or issues that may arise.

By following these guidelines, you can ensure the safe and effective use of your GERMAN MADE SPECIAL GUNSMITHING PLIERS NO. 153 STRAIGHT NEEDLE. Thank you for prioritizing safety!
