# Safety Instruction Guide for Needle File Handles by Friedr. Dick GmbH

## Introduction

Thank you for choosing the Needle File Handle by Friedr. Dick GmbH. This guide provides essential safety information, usage instructions, and disposal guidelines to ensure safe and effective use of the product. Please read this guide carefully before using the needle file handle.

## General Safety Guidelines

- Ensure that the needle file handle is used only for its intended purpose — to hold needle files securely.
- Inspect the needle file handle for any signs of damage before each use. Do not use a damaged handle.
- Keep the needle file handle out of reach of children to prevent accidental injury.
- Always use the needle file handle in a welllit area to avoid accidents.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU Safety Gate platform.

## Specific Safety Precautions for Use

- **Proper Grip:** Always ensure a firm grip on the handle to maintain control while using the needle file.
- **Avoid Canting:** Use the handle to control the direction of the cut, preventing canting or slipping of the file.
- **Hollow Handle Caution:** Be cautious when inserting or adjusting the needle file within the hollow handle to prevent injury.
- **File Length Adjustment:** Ensure that the file is securely seated in the handle to the desired length before use. Do not exceed the handle's capacity.
- **Personal Protective Equipment (PPE):** Consider wearing safety glasses and gloves to protect against debris and sharp edges while using the needle file.

## Instructions for Installation and Usage

### 1. Inserting the Needle File:

- Carefully remove the needle file from its packaging.
- Align the file with the opening of the hollow handle.
- Insert the file into the handle until it reaches the desired length.
- Secure the file by tightening the positivegrip screw collet until it is firmly held in place.

### 2. Using the Needle File Handle:

- Hold the handle firmly with one hand and the material to be filed with the other hand.
- Use controlled movements to file the material, maintaining a steady direction.
- If the file begins to slip, stop immediately and check the security of the file in the handle.

### 3. Removing the Needle File:

- Loosen the positivegrip screw collet by turning it counterclockwise.
- Carefully pull the file out of the handle.
- Store the needle file and handle in a safe, dry place when not in use.

## Disposal Instructions

- Dispose of the needle file handle and any damaged files in accordance with local regulations for plastic waste.
- Do not dispose of the product in regular household waste.
- Check with local waste management authorities for specific disposal guidelines.

## Contact Information for Further Support

For any inquiries or further assistance regarding the Needle File Handle by Friedr. Dick GmbH, please refer to the product packaging or visit the manufacturer's website for more information.

Thank you for prioritizing safety while using the Needle File Handle. Following these instructions will help ensure a safe and effective experience.
