Safety Instruction Guide for HIGH SPEED STEEL CUTTERS #115 DREMEL

Introduction

Thank you for choosing the HIGH SPEED STEEL CUTTERS #115 DREMEL. This guide provides essential safety instructions to ensure the safe use of this product. Please read this guide carefully before using the cutters to minimize risks and ensure effective operation.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE), including safety goggles and gloves, when using the cutters.
- Ensure that the work area is clean, welllit, and free from clutter to prevent accidents.
- Keep the cutters out of reach of children and vulnerable individuals.
- Do not use the cutters for any purpose other than their intended use.
- Regularly inspect the cutters for damage or wear before each use. Do not use damaged cutters.
- Follow all local regulations regarding the use and disposal of cutting tools.

Specific Safety Precautions for Use

- Ensure that the cutter is securely attached to the rotary tool before use.
- Use the cutter at the recommended speed settings for optimal performance and safety.
- Avoid applying excessive force when cutting; let the tool do the work to prevent accidents.
- Do not force the cutter into the material. Allow it to cut through naturally.
- Be cautious of hot surfaces during and after use, as the cutter may become very hot.
- Always disconnect the rotary tool from the power source when changing cutters or performing maintenance.

Instructions for Installation and Usage

1. Installation:

- Ensure the rotary tool is unplugged.
- Select the appropriate highspeed steel cutter for your task.
- Insert the 1/8" shank of the cutter into the collet of the rotary tool.
- Tighten the collet securely to prevent the cutter from coming loose during operation.

2. Usage:

- Plug in the rotary tool and select the desired speed setting.
- Hold the rotary tool firmly with both hands for better control.
- Position the cutter at the desired angle against the material you wish to cut.
- Start the rotary tool and gradually bring the cutter into contact with the material.
- Move the cutter steadily through the material without forcing it.
- After completing the cut, turn off the rotary tool and allow the cutter to come to a complete stop before setting it down.

Disposal Instructions

- Dispose of used or damaged cutters in accordance with local regulations.
- Do not dispose of the cutters in regular household waste.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any safety inquiries or concerns regarding the HIGH SPEED STEEL CUTTERS #115 DREMEL, please refer to the manufacturer's contact information located on the product packaging or their official website.

By following these safety instructions, you can ensure a safer and more effective experience when using the HIGH SPEED STEEL CUTTERS #115 DREMEL. Thank you for prioritizing safety!
