# Safety Instruction Guide for #402 Mandrel Dremel Mandrel

## Introduction

Thank you for choosing the #402 Mandrel Dremel Mandrel. This product is designed for use with all cutting wheels, sanding discs, and polishing wheels. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always follow the manufacturer's instructions for use.
- Inspect the mandrel and accessories before each use for any signs of damage.
- Ensure that the working area is clean and welllit.
- Keep all tools and accessories out of reach of children.
- Wear appropriate personal protective equipment (PPE), including safety goggles and gloves.
- Do not use the mandrel for purposes other than those specified by the manufacturer.
- If you experience any discomfort or unusual noise during operation, stop using the product immediately.

## Specific Safety Precautions for Use

- Ensure that the shank of the mandrel is securely attached to the tool before use.
- Use the mandrel at the recommended speed settings as specified in the tool's manual.
- Avoid applying excessive pressure while using the mandrel, as this may lead to tool damage or personal injury.
- Always allow the tool to come to a complete stop before changing accessories or attempting to remove the mandrel.
- Do not exceed the maximum RPM rating of the cutting wheels, sanding discs, or polishing wheels used with the mandrel.
- Be aware of your surroundings and ensure that no one is in close proximity while operating the tool.

## Instructions for Installation and Usage

### 1. Installation

- Make sure your Dremel tool is unplugged or turned off.
- Insert the mandrel shank into the collet of the Dremel tool.
- Tighten the collet securely using the appropriate wrench, ensuring that the mandrel is held firmly in place.

### 2. Usage

- Select the appropriate accessory (cutting wheel, sanding disc, or polishing wheel) for your task.
- Attach the accessory to the mandrel by following the manufacturer's instructions.
- Plug in or turn on your Dremel tool.
- Start the tool at a low speed to ensure stability, then gradually increase the speed as needed.
- Use the tool with a steady and controlled motion, allowing the accessory to do the work.
- After completing your task, turn off the tool and unplug it before removing the mandrel or accessory.

## Disposal Instructions

- Dispose of the mandrel and any accessories in accordance with local regulations.
- Do not dispose of electrical components in regular household waste.
- Consider recycling options for the mandrel and accessories where available.

## Contact Information for Further Support

For any safety inquiries or further assistance regarding the #402 Mandrel Dremel Mandrel, please refer to the manufacturer's website or customer service.

## Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your #402 Mandrel Dremel Mandrel. Always prioritize safety and adhere to the guidelines provided. Thank you for your attention and safe usage.
