## An Easy, Fast Way to Fit and Finish Your Firearm Components

If you're hand-fitting and filing away metal to get components to fit together, particularly on some firearms where a fine attention to detail is desperately required, then the ORS NASCO Dykem Hi-Spot blue is a must-have in your workshop. This bright-blue paste can be evenly and consistently applied to any fitted surface, and when two parts are brought together, the blue rubs off on the high spots in the material, letting tinkerers and gunsmiths know exactly what parts of the gun need filing, fitting and polishing. Each bottle of Hi-Spot Blue contains 0.55 ounce of material.

# DYKEM HiSPOT BLUE .55OZ Safety Instruction Guide

## Introduction

Thank you for choosing DYKEM HiSPOT BLUE .55OZ. This product is designed to assist in accurately fitting and filing metal components, particularly in firearms. It is essential to use this product safely and effectively. This guide provides important safety instructions and information to ensure a safe experience while using DYKEM HiSPOT BLUE.

## General Safety Guidelines

- Ensure that the product is kept out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as described in this guide.
- Always read and follow the instructions provided on the product label and in this guide.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check for product recalls on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Avoid contact with skin and eyes. In case of contact, rinse immediately with plenty of water and seek medical attention if irritation persists.
- Use in a wellventilated area to avoid inhaling fumes.
- Do not ingest. If swallowed, seek medical assistance immediately.
- Wear appropriate personal protective equipment, such as gloves and safety goggles, during use.
- Store in a cool, dry place away from direct sunlight and heat sources.
- Do not mix with other chemicals unless specified.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure the surface to be treated is clean and free of dust or grease.
- Shake the bottle well before use to ensure an even consistency.

### 2. Application

- Apply a thin, even layer of DYKEM HiSPOT BLUE to the surface of one of the components.
- Bring the two components together gently, ensuring they are aligned as needed.

### 3. Fitting Process

- Separate the components to check the blue markings. The blue will transfer to the high spots of the material.
- Identify areas that require filing, fitting, or polishing based on the blue markings.
- Repeat the application and fitting process as necessary until the desired fit is achieved.

### 4. CleanUp

- After use, clean any excess product from the surfaces with a suitable solvent.
- Ensure all tools and work areas are cleaned to prevent accidental contact with the product.

## **Disposal Instructions**

- Dispose of any unused product and empty containers in accordance with local regulations.
- Do not dispose of in household waste. Check for specific disposal instructions for hazardous materials in your area.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of DYKEM HiSPOT BLUE, please refer to the product label for guidance or consult your local distributor.

By following these guidelines, you can ensure a safe and effective experience with DYKEM HiSPOT BLUE .55OZ. Thank you for your attention to safety.
