Safety Instruction Guide for HIGH SPEED STEEL END MILL CUTTER BROWNELLS

Introduction

Thank you for purchasing the HIGH SPEED STEEL END MILL CUTTER from BROWNELLS. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this guide thoroughly before using the end mill cutter.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE), including safety glasses, gloves, and hearing protection.
- Ensure that the working area is clean and welllit to prevent accidents.
- Keep all tools and equipment in good working condition and inspect them regularly for wear and damage.
- Do not use the end mill cutter for any purpose other than its intended use.
- Be aware of your surroundings and ensure that bystanders are at a safe distance while operating the cutter.
- Follow all local regulations and guidelines regarding the use of machinery and tools.

Specific Safety Precautions for Use

- Before use, ensure that the end mill cutter is securely attached to the milling machine.
- Always check the cutter for any signs of damage or wear before each use.
- Use the cutter at the recommended speeds and feeds to prevent overheating and potential breakage.
- Do not force the cutter through the material; allow it to cut at its own pace.
- Avoid making sudden or abrupt movements while operating the cutter to maintain control.
- If the cutter becomes stuck or jams, stop the machine immediately and follow the manufacturer's instructions for clearing the jam.
- Do not reach into the cutting area while the machine is running.

Instructions for Installation and Usage

1. Installation:

- Ensure the milling machine is turned off and unplugged before installation.
- Select the appropriate collet or chuck for the 3/8" diameter shank of the end mill cutter.
- Insert the cutter into the collet or chuck and secure it tightly to prevent slippage during operation.
- Doublecheck that the cutter is installed correctly and securely.

2. Usage:

- Power on the milling machine and set it to the recommended speed for the material being cut.
- Position the workpiece securely on the machine table.
- Align the cutter with the intended cutting path and lower it to the material slowly.
- Begin milling by gradually advancing the cutter into the material.
- Monitor the cutting process closely for any signs of irregularities or issues.

Disposal Instructions

- Dispose of the end mill cutter in accordance with local regulations regarding metal waste.
- Do not dispose of the cutter in regular household waste.
- If the cutter is damaged or no longer usable, consider recycling it at a designated metal recycling facility.

Contact Information for Further Support

For inquiries regarding safety or product issues, please contact the manufacturer or your point of purchase. Ensure you have the product details and any relevant information ready for a prompt response.

Conclusion

By following these safety instructions and guidelines, you can ensure a safer working environment while using the HIGH SPEED STEEL END MILL CUTTER. Always prioritize safety and consult this guide whenever necessary. Thank you for your attention to safety and for choosing BROWNELLS products.
