

DIAMOND NEEDLE FILES SETS & SINGLE - EZE-LAP DIAMOND NEEDLE FILE 600 SET, FINE STEEL

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Files](#)

EZE-LAP DIAMOND NEEDLE FILES SETS & SINGLE The EZE-LAP Diamond Needle Files Set are precision tools designed for efficient material removal on hard substances such as carbide, steel, glass, and ceramics. These files feature an industrial diamond powder-impregnated surface, allowing for rapid cutting with minimal effort, making them ideal for gunsmiths and metalworkers requiring fine detailing and shaping. **Description and Features:**

Each file measures 5.5 inches (14 cm) in length and is equipped with a carbon steel shank of 0.118 inches (3 mm) in diameter, ensuring durability and ease of handling. The diamond-impregnated surface provides a consistent and aggressive cut, reducing the amount of travel needed to achieve the desired material removal. Available in both coarse and fine grits, these files cater to a range of finishing requirements, from rapid stock removal to delicate finishing touches. **Specifications:** Length: 5.5 inches (14 cm) Shank Diameter: 0.118 inches (3 mm) Grit Options: Coarse and Fine **Customer Insights:** Customers of the EZE-LAP Diamond Needle Files appreciate their efficiency in cutting through hard materials with minimal effort. The availability of coarse and fine grits allows for versatility in various applications, from aggressive material removal to fine finishing. The durable construction and consistent performance make these files a valuable addition to any professional's toolkit. Incorporating the EZE-LAP Diamond Needle Files into your collection ensures you have the precision and efficiency needed for detailed work on hard materials, enhancing both the quality and speed of your projects.

Safety Instruction Guide for EZELAP Diamond Needle Files Sets & Single EZELAP Diamond Needle File 600 Set, Fine Steel

Introduction

Thank you for choosing the EZELAP Diamond Needle Files Sets & Single EZELAP Diamond Needle File 600 Set, Fine Steel. This guide provides essential safety instructions and usage information to ensure your safety and the effective use of this product. Please read this guide carefully before using the files.

General Safety Guidelines

- Ensure that you are using the product as intended.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves to protect against potential injuries.
- Keep the files out of reach of children and vulnerable individuals.
- Be aware of your surroundings and ensure that the work area is clean and free from obstructions.
- Regularly check the files for any signs of damage or wear. Do not use damaged files.
- Follow the manufacturer's guidelines and recommendations for use and maintenance.

Specific Safety Precautions for Use

- Use the files only on the materials specified: carbide, steel, glass, or ceramics.
- Avoid using excessive force when filing. Let the diamond surface do the work.
- Do not use the files for applications they were not designed for, such as cutting or prying.
- Always file in a controlled manner to prevent slipping, which can cause injuries.
- Store the files in a dry place away from direct sunlight to prevent damage to the diamond surface.

Instructions for Installation and Usage

- Before using the files, ensure that the workpiece is securely held in place.
- Hold the file by its handle, ensuring a firm grip.
- Begin filing with light pressure, using a backandforth motion.
- For best results, maintain a consistent angle and apply even pressure throughout the filing process.
- After use, clean the files to remove any debris or material buildup. This will help maintain their effectiveness and longevity.

Disposal Instructions

- Dispose of the files in accordance with local regulations.
- If the files are damaged or no longer usable, ensure they are disposed of safely to prevent injury to others.
- Recycle materials where possible, following your local recycling guidelines.

Contact Information for Further Support

For any safety inquiries or further support regarding the EZELAP Diamond Needle Files Sets & Single EZELAP Diamond Needle File 600 Set, please refer to the manufacturer's contact information provided with your product packaging or visit the manufacturer's website.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your EZELAP Diamond Needle Files Sets & Single EZELAP Diamond Needle File 600 Set, Fine Steel. Always prioritize safety and proper handling to maximize the longevity and performance of your tools. Thank you for your attention to these important guidelines.
