

DIAMOND NEEDLE FILES SETS & SINGLE - EZE-LAP DIAMOND NEEDLE FILE 600 SET, COARSE STEEL

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Files](#)

EZE-LAP DIAMOND NEEDLE FILES SETS & SINGLE The EZE-LAP Diamond Needle Files Set are precision tools designed for efficient material removal on hard substances such as carbide, steel, glass, and ceramics. These files feature an industrial diamond powder-impregnated surface, allowing for rapid cutting with minimal effort, making them ideal for gunsmiths and metalworkers requiring fine detailing and shaping. **Description and Features:**

Each file measures 5.5 inches (14 cm) in length and is equipped with a carbon steel shank of 0.118 inches (3 mm) in diameter, ensuring durability and ease of handling. The diamond-impregnated surface provides a consistent and aggressive cut, reducing the amount of travel needed to achieve the desired material removal. Available in both coarse and fine grits, these files cater to a range of finishing requirements, from rapid stock removal to delicate finishing touches. **Specifications:** Length: 5.5 inches (14 cm) Shank Diameter: 0.118 inches (3 mm) Grit Options: Coarse and Fine **Customer Insights:** Customers of the EZE-LAP Diamond Needle Files appreciate their efficiency in cutting through hard materials with minimal effort. The availability of coarse and fine grits allows for versatility in various applications, from aggressive material removal to fine finishing. The durable construction and consistent performance make these files a valuable addition to any professional's toolkit. Incorporating the EZE-LAP Diamond Needle Files into your collection ensures you have the precision and efficiency needed for detailed work on hard materials, enhancing both the quality and speed of your projects.

Safety Instruction Guide for EZELAP Diamond Needle Files 600 Set, Coarse Steel

Introduction

Thank you for choosing the EZELAP Diamond Needle Files 600 Set. These files are designed for precision cutting and shaping of hard materials such as carbide, steel, glass, and ceramics. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle tools with care to prevent injury.
- Keep files away from children and vulnerable individuals.
- Inspect files for damage before use. Do not use damaged files.
- Store files in a safe, dry place to prevent rust and damage.
- Use personal protective equipment (PPE) such as safety glasses and gloves when working with files.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Avoid applying excessive pressure while using the files; let the diamond surface do the work.
- Do not use files on materials for which they are not designed.
- Ensure that your workspace is clean and free of clutter to prevent accidents.
- Be cautious of sharp edges and points on the files; handle with care.
- Do not use files in wet or damp conditions to avoid slipping and reduce the risk of electrical hazards.

Instructions for Installation and Usage

1. Preparation:

- Ensure your workspace is clean and welllit.
- Gather all necessary materials and tools before starting.

2. Using the Files:

- Hold the file by the handle, ensuring a firm grip.
- Position the file against the material you wish to work on.
- Apply light pressure and move the file back and forth in a smooth motion.
- Check your progress frequently to avoid overfiling.

3. Maintenance:

- Clean files after each use to remove any debris.
- Store files in a protective case to prevent damage.

Disposal Instructions

- Dispose of any damaged files in accordance with local regulations.
- Avoid throwing files in regular waste; check for recycling programs that accept metal tools.

Contact Information for Further Support

For any safety inquiries or further assistance, please contact the designated EU contact point associated with this product. Ensure you have the product details available for reference.

Thank you for your attention to these safety guidelines. Your safety is our priority. Enjoy using your EZELAP Diamond Needle Files!
