

# 1911 GUIDE RODS - EGW ONE-PIECE STI TUNGSTEN ROD

[Handgun Parts](#) > [Recoil Parts](#) > [Recoil Spring Guide Rods](#)

## Weight-Adding Tungsten Or Tough Stainless Steel

5" One Piece Guide Rod: Fits flush with the slide so you can turn the bushing to disassemble the gun. This guide rod also features a takedown hole. This tungsten guide rod should be checked by a gunsmith familiar with the 1911 design. It may require minor fitting to contact the frame evenly. Failure to do so may lead to premature wear and/or breakage which will not be covered under warranty. The head of the guide rod has smooth beveled edges to make for a seamless look.

# Safety Instruction Guide for 1911 GUIDE RODS EGW ONEPIECE STI TUNGSTEN ROD

## Introduction

Thank you for purchasing the 1911 Guide Rods EGW OnePiece STI Tungsten Rod. This guide rod is designed to enhance the performance of your 1911 firearm. However, it is essential to follow safety guidelines to ensure safe usage and maintenance. This document provides comprehensive safety instructions in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always handle firearms with care and treat every gun as if it is loaded.
- Ensure that the guide rod is compatible with your specific 1911 model.
- Consult a qualified gunsmith if you are unsure about installation or fitting.
- Regularly inspect the guide rod for wear and damage.
- Store the guide rod and firearm in a secure location away from children and unauthorized users.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- This guide rod should only be used with 1911 Auto or STI Government length slides with 5" (12.7 cm) barrels.
- The guide rod may require minor fitting to ensure it contacts the frame evenly. Failure to do so may lead to premature wear or breakage.
- The guide rod features a takedown hole; ensure that it is properly aligned during installation.
- Avoid using excessive force during installation or disassembly to prevent damage to the guide rod or firearm.
- Do not modify the guide rod in any way that may compromise its integrity or safety.
- Always follow the manufacturer's instructions for disassembly and reassembly of your firearm.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure that the firearm is unloaded before beginning installation.
- Clean the area where the guide rod will be installed to remove any debris.

### 2. Installation

- Remove the existing guide rod from the firearm according to the manufacturer's instructions.
- Align the new guide rod with the frame and slide of the firearm.
- Insert the guide rod into the slide, ensuring that it fits flush.
- Turn the bushing to secure the guide rod in place.

### 3. Usage

- Regularly check the guide rod for proper alignment and secure fit during use.
- After each use, inspect the guide rod for signs of wear or damage.
- If you notice any issues, consult a qualified gunsmith for evaluation.

## **Disposal Instructions**

- Dispose of the guide rod in accordance with local regulations regarding metal waste.
- If the guide rod is damaged, do not attempt to repair it; dispose of it safely to prevent injury.
- Ensure that all components are disposed of in an environmentally friendly manner.

## **Contact Information for Further Support**

For any inquiries regarding safety or product performance, please reach out to your local authorized dealer or a qualified gunsmith. It is crucial to have access to professional assistance when dealing with firearm components.

Thank you for prioritizing safety while using the 1911 Guide Rods EGW OnePiece STI Tungsten Rod. Your responsible handling and maintenance of this product contribute to a safe shooting experience.
