

REMINGTON 700, 721, 725 LONG ACTION SCOPE BASES - EGW REM 700, 721, 725 LONG ACTION 0 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW Remington 700, 722, 40X Long Action Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your shotgun with no drilling or tapping. Precision machined from extruded aluminum with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Lightweight Tactical mounts have a milled center channel for weight reduction. Full-width cross-slots are gauged to MIL-STD 1913 specs to ± 0.002 ". Machined from ultra-rigid, extruded 6061 T6 aluminum. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite for mounting.

REMINGTON 700, 721, 725 LONG ACTION SCOPE BASES Safety Instruction Guide

Introduction

Thank you for choosing the EGW Remington 700, 721, and 725 Long Action Scope Bases. This guide provides essential safety instructions to ensure the safe use and installation of your scope bases. Please read this guide carefully before use to understand the necessary precautions and procedures.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always follow the manufacturer's instructions for installation and usage.
- Inspect the product before each use for any signs of damage or wear.
- Keep the scope bases out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Only use compatible Picatinny or Weaver scope rings with the scope bases.
- Ensure that the scope bases are securely mounted to avoid any movement during use.
- Do not exceed the recommended torque of 20 inch lbs when installing the scope bases.
- Use a drip of blue Loctite on screws to prevent loosening over time.
- Avoid using the scope bases if any components appear damaged or compromised.
- Be cautious when handling tools during installation to prevent injury.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a socket head Torx wrench.
- Ensure that the firearm is unloaded and pointed in a safe direction.

2. Installation Steps:

- Align the scope bases with the factory scope mount holes on the receiver.
- Insert the socket head Torx screws into the holes of the scope bases.
- Tighten the screws gradually in a cross pattern to ensure even pressure.
- Use a torque wrench to apply 20 inch lbs of torque to each screw.
- Apply a drip of blue Loctite to each screw for added security.

3. Usage:

- Once installed, mount your scope onto the bases according to the scope manufacturer's instructions.
- Adjust the eye relief and ensure that the scope is level before securing it.

4. PostInstallation Check:

- After installation, doublecheck that all screws are tightened and the scope is securely mounted.
- Conduct a test to ensure that the scope holds zero and does not shift during use.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the scope bases are no longer usable, dispose of them in a manner that prevents environmental harm.
- Consider recycling materials when possible.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the manufacturer's contact details provided with your purchase.

Thank you for following these safety instructions to ensure a safe and enjoyable experience with your EGW Remington 700, 721, and 725 Long Action Scope Bases.
