Hex Head Prevents Slot Stripping & Scratching

Whether you're building a custom 1911 or just upgrading grips, these high-quality, economical replacement grip screws provide a secure, neat-looking installation. Hex-head screws tighten with an Allen wrench to reduce risk of stripping the slot or the screwdriver slipping and damaging grip or frame.

1911 Grip Screws Safety Instruction Guide

Introduction

Thank you for choosing the 1911 Grip Screws. These highquality, economical replacement grip screws are designed for secure and neat installations on your 1911 firearm. This guide provides essential safety instructions to ensure safe usage and installation, in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is suitable for your specific 1911 model (Government, Commander, Officers) before installation.
- Always handle the screws and tools with care to prevent injury.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for wear and tear on the screws and grips to avoid accidents.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the correct size Allen wrench to tighten the hexhead screws to prevent stripping the slot.
- Avoid overtightening the screws, as this can damage the grip or frame.
- Inspect the screws before each use for any signs of damage or corrosion.
- Do not attempt to modify the screws or use them in any manner other than intended.

Instructions for Installation and Usage

1. Gather Tools and Materials:

- 1911 Grip Screws
- Allen wrench (appropriate size)
- Grip panels

2. Installation Steps:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Remove the existing grip screws using the Allen wrench.
- Carefully remove the old grip panels.
- Align the new grip panels with the frame of the firearm.
- Insert the new grip screws through the grip panels into the frame.
- Use the Allen wrench to tighten the screws securely, ensuring they are snug but not overtightened.

3. PostInstallation Check:

- Verify that the grip panels are securely attached and do not move.
- Perform a visual inspection of the installation to ensure everything is in place.

Disposal Instructions

- Dispose of any old or damaged screws responsibly, following local regulations for metal waste.
- Do not dispose of screws in regular household waste.

Contact Information for Further Support

For any safety inquiries or further assistance, please contact your local supplier or manufacturer. Ensure you have the product information ready for a more efficient response.

By following these guidelines, you will ensure a safe and effective installation and usage of your 1911 Grip Screws. Thank you for prioritizing safety and compliance with EU regulations.
