

# PRACTICAL ALUMINUM RINGS - EGW 30MM PRACTICAL RINGS .840" HIGH

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Scope Rings](#)

## Low Profile & High Strength

Vertically split, low-profile rings clamp to MIL-STD 1913 Picatinny rails or Weaver-style bases and provide an eye-pleasing, streamlined look without compromising strength. Ring halves clamp together with four, steel Allen head screws for a tight hold on optic and rail. Steel cross-bar locks in the rail slot or base to prevent slippage under recoil. Available for 1" and 30mm diameter scope tubes.

## Attributes

- Name: [EGW 30MM PRACTICAL RINGS .840" HIGH](#)
- Manufacturer: [EGW](#)
- Product no.: 296000160
- Mfr. No.: 61000

# Safety Instruction Guide for PRACTICAL ALUMINUM RINGS EGW 30MM PRACTICAL RINGS

## Introduction

Thank you for choosing the PRACTICAL ALUMINUM RINGS EGW 30MM PRACTICAL RINGS. These rings are designed to securely mount your optics to your firearm while ensuring safety and reliability. This guide provides essential safety instructions and guidelines to help you use the product effectively and safely in compliance with EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the rings are compatible with your scope tube diameter (30mm) and rail type (MILSTD 1913 Picatinny or Weaverstyle).
- Always inspect the rings for any visible damage before use. Do not use if damaged.
- Store the rings in a dry, cool place away from direct sunlight to prevent degradation of materials.
- Keep the rings out of reach of children and vulnerable individuals to prevent accidental injury.
- Report any unsafe conditions or accidents to local authorities immediately.

## Specific Safety Precautions for Use

- Use only the provided steel Allen head screws for securing the rings to ensure a tight fit.
- Avoid overtightening the screws, as this may damage the rings or the rail.
- Ensure that the steel crossbar is securely locked in the rail slot or base before use to prevent slippage under recoil.
- Do not modify the rings in any way, as this could compromise safety and performance.
- Regularly check the tightness of the screws and the integrity of the rings during routine maintenance of your firearm.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools, including an Allen wrench suitable for the screws provided with the rings.
- Ensure that your firearm is unloaded and in a safe condition before beginning installation.

### 2. Installation:

- Place the ring halves around the scope tube, ensuring they are aligned properly.
- Position the rings on the MILSTD 1913 Picatinny rail or Weaverstyle base where you want to mount the scope.
- Insert the steel Allen head screws into the designated holes on the ring halves.
- Tighten the screws evenly using the Allen wrench, ensuring a secure fit without overtightening.
- Check that the steel crossbar is locked into the rail slot or base.

### 3. Usage:

- Once installed, check the alignment of your optics before using the firearm.
- Always handle the firearm responsibly and in accordance with local laws and regulations.
- Regularly inspect the rings and screws for wear and tear, especially after extensive use.

## **Disposal Instructions**

- At the end of the product's life cycle, dispose of the rings in accordance with local regulations regarding metal and aluminum recycling.
- Do not dispose of the product in regular household waste.

## **Contact Information for Further Support**

For further assistance or inquiries regarding safety and product information, please refer to your local distributor or manufacturer contact point.

By following these guidelines, you can ensure safe and effective use of the PRACTICAL ALUMINUM RINGS EGW 30MM PRACTICAL RINGS. Thank you for your attention to safety.
