

1911 HEAVY DUTY SLIDE STOP - EGW .45 ACP, SS, .203"

[Handgun Parts](#) > [Frame Parts](#) > [Slide Catch Parts](#) > [Slide Catches](#)

Machines From Hardened Steel For Maximum Strength & Durability; Standard & Oversized Pins Available

Heavy duty slide stop is precision machined from steel bar stock, then heat-treated for superb hardness and durability. Ensures a precise fit to frame for secure, consistent lockup; prevents slop or "play" that can compromise accuracy. Available with standard .200" diameter pin or oversized .203" pin for custom fitting to ensure the tightest possible lockup for maximum accuracy. Both sizes available in blued 4140 carbon steel or stainless steel, both with a fine bead-blasted matte finish. Fine-line serrations on pad give your finger secure purchase to release the slide on the first pass.

Safety Instruction Guide for 1911 Heavy Duty Slide Stop EGW .45 ACP

Introduction

Thank you for choosing the 1911 Heavy Duty Slide Stop EGW .45 ACP. This product is designed to enhance the performance of your firearm while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always treat your firearm as if it is loaded, even when you believe it is not.
- Keep your finger off the trigger until you are ready to shoot.
- Store your firearm and accessories in a safe place, out of reach of children and unauthorized users.
- Regularly inspect your slide stop and firearm for any signs of wear or damage.
- Follow all local laws and regulations regarding firearm use and storage.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before installing or adjusting the slide stop.
- Use only the specified pin diameter (.200" or .203") to ensure proper fit and function.
- Avoid using excessive force when installing the slide stop to prevent damage to the firearm.
- Do not modify the slide stop or firearm in any way that may compromise safety or functionality.
- Be aware of your surroundings and ensure that you are in a safe environment when handling your firearm.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools, including a punch tool for pin installation.

2. Removal of Old Slide Stop:

- Locate the existing slide stop on your firearm.
- Use the punch tool to gently push out the existing pin and remove the slide stop.

3. Installation of New Slide Stop:

- Align the new slide stop with the frame of your firearm.
- Insert the appropriate pin (.200" or .203") into the designated hole.
- Use the punch tool to gently tap the pin until it is securely in place.

4. Testing:

- Once installed, manually cycle the slide to ensure proper function.
- Test the slide stop by releasing the slide and ensuring it locks back correctly.

5. Regular Maintenance:

- Periodically check the slide stop for any signs of wear or damage.

- Clean the slide stop and surrounding area to ensure smooth operation.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the slide stop is damaged or no longer usable, ensure it is disposed of safely to prevent accidental use.
- Recycle materials where applicable, following local recycling guidelines.

Contact Information for Further Support

For any inquiries regarding the safety or use of the 1911 Heavy Duty Slide Stop, please refer to the contact information provided by the manufacturer or your retailer. Always ensure you have access to support for any safety concerns or product questions.

This guide is designed to help you use the 1911 Heavy Duty Slide Stop safely and effectively. By following these instructions and guidelines, you can ensure a safer experience while enjoying the benefits of your firearm accessory.
