

1911 STRAIGHT BORED BARREL BUSHING - EGW STRAIGHT BORED BUSHING, BLUED

[Handgun Parts](#) > [Barrel Parts](#) > [Barrel Bushings](#)

Oversized For Precise Fitting; Beveled To Give A Streamlined Look

Straight-bored bushing, CNC machined from solid bar stock and designed for hand-fitting to obtain the best accuracy. Extra thick, .125" flange extends slightly farther than the original factory bushing for maximum barrel protection. Contoured, beveled edge around the flange provides a nice streamlined appearance and smooth holster entry and exit. Fits slides with .699"-.705" ID and barrel with .575"-.583" OD.

Safety Instruction Guide for 1911 Straight Bored Barrel Bushing

Introduction

Thank you for choosing the 1911 Straight Bored Barrel Bushing by EGW. This guide provides essential safety instructions and usage information to ensure your product is used safely and effectively. Please read this document carefully before installation and use.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always handle firearms with care and follow all applicable laws and regulations.
- Be aware of your surroundings when using firearms; ensure that no bystanders are present.
- Regularly inspect your firearm and its components for wear and damage.
- If you notice any unusual performance or wear, cease use immediately and consult a qualified gunsmith.
- Keep the product out of reach of children and unauthorized users.

Specific Safety Precautions for Use

- Only use the 1911 Straight Bored Barrel Bushing with compatible models, specifically the Government model.
- Ensure that the barrel and slide dimensions are within the specified limits:
 - Slide ID: .699" .705"
 - Barrel OD: .575" .583"
- Use proper tools and techniques when handfitting the bushing to avoid injury or damage.
- Wear appropriate safety gear, including eye protection, during installation and use.
- Do not attempt to modify the bushing beyond the intended handfitting process.

Instructions for Installation and Usage

1. Preparation

- Gather necessary tools, including a proper fitting tool and safety gear.
- Ensure your workspace is clean and free from distractions.

2. Installation

- Remove the existing barrel bushing from your firearm.
- Clean the barrel and slide area thoroughly before installation.
- Carefully fit the new bushing into the slide, ensuring it is aligned properly.
- Handfit the bushing as needed to achieve a snug fit, avoiding excessive force.
- Once fitted, ensure that the bushing can rotate freely without obstruction.

3. Usage

- After installation, test the fit of the barrel and bushing by cycling the action of the firearm.
- Ensure that the firearm functions correctly before use.
- Always follow standard firearm safety practices when handling and operating your firearm.

4. PostUse Inspection

- After use, inspect the bushing and surrounding components for signs of wear or damage.

- Clean the firearm as per the manufacturer's guidelines.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling options if available, especially for metal components.

Contact Information for Further Support

- For any safety inquiries or additional support, please refer to the manufacturer's contact information provided with the product packaging.

Thank you for your attention to these safety instructions. Your safety and the safety of others depend on responsible firearm handling and maintenance.
