

# SAVAGE ROUND BACK SHORT ACTION SCOPE BASES - EGW

## SAVAGE 10-16 ROUND REAR SHORT ACTION 20 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW Savage 10-16 Round Back Short Action Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your shotgun with no drilling or tapping. Precision machined from extruded aluminum with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Lightweight Tactical mounts have a milled center channel for weight reduction. Full-width cross-slots are gauged to MIL-STD 1913 specs to  $\pm 0.002$ ". Machined from ultra-rigid, extruded 6061 T6 aluminum. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite for mounting.

# Safety Instruction Guide for EGW Savage Round Back Short Action Scope Bases

## Introduction

Thank you for choosing the EGW Savage Round Back Short Action Scope Bases. This guide provides essential safety instructions and information to ensure the safe and effective use of your product. Please read this guide carefully before installation and usage.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle firearms and related accessories with care and respect.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the scope bases for any signs of wear or damage.
- If you notice any defects or issues, do not use the product and contact the manufacturer for assistance.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Before installing the scope bases, ensure that the firearm is unloaded and pointed in a safe direction.
- Use proper eye protection while installing or adjusting the scope bases.
- Follow all manufacturer recommendations regarding torque specifications and the use of Loctite.
- Ensure that the scope rings used are compatible with the Picatinny rail system.
- Avoid overtightening screws, as this may damage the product or affect its performance.
- Always check the alignment of the scope after installation to ensure proper sighting.

## Instructions for Installation and Usage

### 1. Preparation

- Gather the necessary tools: a socket head Torx® wrench and blue Loctite.
- Ensure the firearm is unloaded and in a secure position.

### 2. Installation Steps

- Locate the factory scope mount holes on the firearm's receiver.
- Align the EGW Savage Round Back Short Action Scope Bases with the holes.
- Insert the socket head Torx® screws into the designated holes.
- Tighten the screws gradually, ensuring even pressure across the base.
- Apply blue Loctite to the screws and tighten to a torque of 20 inch lbs.
- Allow the Loctite to cure as per the manufacturer's instructions.

### 3. Usage

- Once installed, attach the Picatinny or Weaver scope rings to the scope bases.
- Mount your scope according to the manufacturer's instructions.
- Adjust the eye relief and ensure the scope is firmly secured.

### 4. PostInstallation Check

- Inspect the installation for any loose screws or misalignment.

- Perform a function check by ensuring the scope is securely mounted and operational.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations for aluminum and metal components.
- Do not dispose of the product in household waste.
- Consider recycling options available in your area for metal products.

## **Contact Information for Further Support**

For any questions or concerns regarding the installation, usage, or safety of the EGW Savage Round Back Short Action Scope Bases, please refer to the manufacturer's contact information provided with your product.

Thank you for your attention to these safety guidelines. Your safety is our priority.
