

7-HOLE CHAMBER CHECKERS - EGW .45 ACP 7-HOLE CARTRIDGE CHECKER

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

Chamber Checkers help you avoid jams, misfires, feeding problems, and other malfunctions caused by out-of-spec ammo. Use with factory loaded ammunition as well as reloaded ammo prior to shooting to verify your ammunition is within SPEC. These 7-Hole checkers are machined from solid 6061 T6 aircraft grade aluminum and uses actual Clymer reamers to ensure the ammo matches your chamber. Measures minimum case diameter as well as maximum overall length. Anodized Matte Black.

Safety Instruction Guide for 7HOLE CHAMBER CHECKERS EGW .45 ACP 7HOLE CARTRIDGE CHECKER

Introduction

Thank you for purchasing the 7HOLE CHAMBER CHECKERS EGW .45 ACP 7HOLE CARTRIDGE CHECKER. This product is designed to help you ensure that your ammunition is within specifications, reducing the risk of jams, misfires, and other malfunctions. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always handle all ammunition and firearms with care and ensure they are stored safely.
- Use the chamber checker only with .45 ACP ammunition.
- Ensure that you are in a safe environment when using the chamber checker.
- Keep the chamber checker out of reach of children and unauthorized users.
- Regularly check for any signs of wear or damage on the chamber checker before use.
- Follow all local laws and regulations regarding ammunition and firearm usage.

Specific Safety Precautions for Use

- Inspect the chamber checker for any defects before each use.
- Do not use the chamber checker with ammunition that appears damaged or out of specification.
- Ensure that the chamber checker is clean and free from debris before use.
- Do not force the cartridge into the chamber checker; if it does not fit easily, do not use it.
- Always verify that the firearm is unloaded before using the chamber checker.
- Use appropriate eye protection when using the chamber checker to inspect ammunition.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the chamber checker is clean and free from any obstructions.
- Gather your .45 ACP ammunition for testing.

2. Using the Chamber Checker:

- Insert the cartridge into one of the 7 holes of the chamber checker.
- Gently push the cartridge until it is fully seated.
- Check the fit of the cartridge:
 - If the cartridge fits snugly without excessive force, it is within specifications.
 - If the cartridge does not fit or is difficult to remove, do not use this ammunition.

3. Measuring Specifications:

- The chamber checker will measure the minimum case diameter and maximum overall length.
- Ensure that your ammunition meets the specifications as indicated by the chamber checker.

4. PostUse:

- Remove the cartridges from the chamber checker after testing.

- Clean the chamber checker if necessary and store it in a safe place.

Disposal Instructions

- Dispose of any defective or outofspec ammunition according to local regulations.
- Do not dispose of the chamber checker in regular household waste. Check local guidelines for proper disposal methods for aluminum products.

Contact Information for Further Support

For any safety inquiries or assistance regarding the 7HOLE CHAMBER CHECKERS EGW .45 ACP 7HOLE CARTRIDGE CHECKER, please refer to the manufacturer's website or customer service resources.

Thank you for prioritizing safety while using the 7HOLE CHAMBER CHECKERS EGW .45 ACP 7HOLE CARTRIDGE CHECKER. Your attention to these guidelines helps ensure safe and effective use of your ammunition.
