Elevates Optics For Fast Target Acquisition; Extra Length For More Eye Relief

Precision-machined aluminum riser mount adds approximately .600" to height of flattop so primary optics can be positioned higher for a more comfortable, heads-up shooting stance and faster target acquisition. Eliminates the need for extra-high rings in most installations. Top of mount is angled 20 MOA to compensate for added height and minimize effect on point-of-impact. Provides a full 7" of usable mounting length, 1½" more than receiver rail; underside of extension is relieved to provide clearance over handguard. Precision CNC machined from lightweight, 6061 T6 aluminum billet, with MIL-STD 1913 Picatinny slot-and-rail spacing that allows fast and simple adjustment of eye relief, plus greater flexibility in choice of optics. Clamps securely to receiver rail with three heavy duty steel cross-bolts to prevent movement under recoil, and matches receiver profile for a smooth, seamless look. Accepts Picatinny and Weaver-style scope rings.

Introduction

Thank you for choosing the AR15/M16 EXTENDARISER 20 MOA FLATTOP MOUNT by EGW. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the mount.

General Safety Guidelines

- Ensure that the mount is compatible with your rifle before installation.
- Always handle firearms and accessories with care and respect.
- Use the mount only for its intended purpose as specified in this guide.
- Keep the mount out of reach of children and unauthorized users.
- Regularly inspect the mount for any signs of wear or damage.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Do not exceed the recommended weight limit for optics mounted on the riser.
- Ensure that the mount is securely fastened to the receiver rail using the provided bolts.
- Avoid using the mount in extreme conditions that may compromise its integrity.
- Do not modify the mount in any way; alterations may affect safety and performance.
- Always check for proper alignment and stability before using the mounted optics.

Instructions for Installation and Usage

Installation Steps:

1. Ensure your firearm is unloaded and pointed in a safe direction.
2. Remove any existing optics and accessories from the flattop receiver.
3. Position the AR15/M16 EXTENDARISER mount onto the receiver rail.
4. Align the mount with the MILSTD 1913 Picatinny slots.
5. Secure the mount using the three heavyduty steel crossbolts provided.
6. Tighten the bolts evenly to ensure a secure fit without overtightening.
7. Reattach your optics to the mount, ensuring they are properly aligned.

Usage Guidelines:

- After installation, perform a function check to ensure the mount and optics are stable.
- Adjust the eye relief of your optics as needed for comfort and visibility.
- Regularly check the tightness of the mount and optics during use, especially after firing.

Disposal Instructions

- When disposing of the mount, follow local regulations for recycling aluminum and metal products.
- Do not dispose of the mount in regular household waste.
- Contact your local waste management authority for proper disposal methods.
