

REMINGTON 870 SCOPE BASES - EGW REMINGTON 870 0 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Shotgun Bases](#)

EGW Remington 870 Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your shotgun with no drilling or tapping. Precision machined from extruded aluminum with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Lightweight Tactical mounts have a milled center channel for weight reduction. Full-width cross-slots are gauged to MIL-STD 1913 specs to +/- .002". Machined from ultra-rigid, extruded 6061 T6 aluminum. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite for mounting.

REMINGTON 870 SCOPE BASES Safety Instruction Guide

Introduction

Thank you for choosing the EGW Remington 870 Scope Bases. This guide provides essential safety instructions and information to ensure the safe and effective use of your product. Please read this guide carefully before installation and usage.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as a scope base for the Remington 870 shotgun.
- Always handle firearms safely and responsibly. Follow all applicable laws and regulations regarding firearm use and ownership.
- Before installation, inspect the product for any visible defects or damage. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals to prevent accidental injury.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always ensure that the shotgun is unloaded before attempting to install or adjust the scope base.
- Use only compatible Picatinny or Weaver scope rings to ensure proper fit and safety.
- When tightening screws, follow the recommended torque specifications to avoid overtightening, which may cause damage.
- Use blue Loctite as recommended to secure screws and prevent loosening during use.
- Regularly check the tightness of the scope base and rings to ensure they remain secure during use.

Instructions for Installation and Usage

1. Preparation:

- Gather necessary tools: a socket head Torx® wrench and blue Loctite.
- Ensure that your workspace is clean and free of distractions.

2. Installation:

- Ensure the shotgun is unloaded.
- Locate the factory scope mount holes on the receiver of the Remington 870.
- Align the EGW scope base with the mount holes.
- Insert the socket head Torx® screws into the predrilled holes of the scope base.
- Use the Torx® wrench to tighten the screws to a torque of 20 inch lbs. Do not exceed this torque.
- Apply a small drop of blue Loctite to each screw before tightening to secure them properly.

3. Usage:

- After installation, attach your chosen scope using compatible scope rings.
- Adjust the scope for eye relief and ensure it is securely mounted.
- Conduct a function check of the shotgun to ensure all components operate correctly.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- If you need assistance with disposal, contact your local waste management authority for guidance.

Contact Information for Further Support

For any inquiries or support regarding the EGW Remington 870 Scope Bases, please refer to the manufacturer's contact information provided with your product packaging or visit the manufacturer's website.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of your EGW Remington 870 Scope Bases. Always prioritize safety and responsible firearm handling. Thank you for your attention to these guidelines.
