

KIMBER 8400 LONG ACTION HD SCOPE BASES - EGW KIMBER 8400 LONG ACTION 0 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW Kimber 8400 Long Action Heavy Duty Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your shotgun with no drilling or tapping. Precision machined from extruded aluminum with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Heavy Duty mounts are .100" lower than the Lightweight mounts to minimize weight and keep your optic closer to the barrel centerline for improved accuracy. Full-width cross-slots are gauged to MIL-STD 1913 specs to +/- .002". Machined from ultra-rigid extruded 7075 T6 aluminum. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite.

Attributes

Safety Instructions for KIMBER 8400 LONG ACTION HD SCOPE BASES

Introduction

Thank you for choosing the KIMBER 8400 Long Action Heavy Duty Scope Bases. This product is designed to enhance the versatility and performance of your rifle. To ensure your safety and the optimal use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the product is suitable for your specific rifle model (Kimber 8400).
- Always handle firearms with care and follow all relevant safety regulations.
- Keep this product out of reach of children and unauthorized users.
- Regularly inspect the scope bases for any signs of wear or damage before use.
- If you notice any defects or issues, do not use the product and contact a qualified gunsmith.

Specific Safety Precautions for Use

- Do not exceed the recommended torque specifications of 20 inch lbs when installing the scope bases.
- Use blue Loctite as recommended to secure screws and prevent loosening during use.
- Ensure that the scope rings you use are compatible with Picatinny or Weaver specifications.
- Avoid overtightening screws, which can damage the scope bases or the rifle receiver.
- Always check that the scope is securely mounted before firing the rifle.

Instructions for Installation and Usage

1. Preparation:

- Ensure your rifle is unloaded and pointed in a safe direction.
- Gather all necessary tools, including a Torx® wrench.

2. Installation Steps:

- Locate the factory scope mount holes on your rifle's receiver.
- Align the KIMBER 8400 scope bases with the mount holes.
- Insert the socket head Torx® screws through the scope bases into the mount holes.
- Tighten the screws gradually to the recommended torque of 20 inch lbs, ensuring even pressure.
- Apply a small amount of blue Loctite to the screws to secure them.

3. Scope Mounting:

- Choose appropriate Picatinny or Weaver scope rings for your scope.
- Mount the scope onto the installed scope bases using the rings.
- Adjust the eye relief to your preference and tighten the ring screws securely.

4. Final Checks:

- Ensure all screws are tightened and the scope is securely mounted.
- Perform a visual inspection to confirm that there are no obstructions or misalignments.

Disposal Instructions

- Dispose of packaging materials in accordance with local regulations.
- If the product is no longer usable, follow your local waste management guidelines for disposal of metal and plastic components.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and usage of the KIMBER 8400 Long Action HD Scope Bases, please refer to the product packaging or manufacturer resources for contact details.

By adhering to these safety instructions, you can ensure safe and effective use of your KIMBER 8400 Long Action HD Scope Bases. Thank you for prioritizing safety and responsible firearm handling.
