

# REMINGTON 700, 722, 40X DUAL EXTENDED SCOPE BASES - EGW

## REMINGTON 700, 722, 40X DUAL EXT LONG ACTION 0 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW Remington 700, 722, 40x Dual Extended Long Action Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your shotgun with no drilling or tapping. Precision machined from extruded aluminum with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Lightweight Tactical mounts have a milled center channel for weight reduction. Full-width cross-slots are gauged to MIL-STD 1913 specs to  $\pm 0.002$ ". Machined from ultra-rigid, extruded 6061 T6 aluminum. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite for mounting.

# Safety Instruction Guide for REMINGTON 700, 722, 40X Dual Extended Scope Bases

## Introduction

Thank you for choosing the EGW Remington 700, 722, 40x Dual Extended Long Action Scope Bases. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your product. Please read this manual carefully before installation and use.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Inspect the scope bases for any visible damage before installation. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear when handling firearms and related accessories.
- Report any unsafe products or incidents to the relevant authorities.
- Stay informed about product recalls via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always ensure that the firearm is unloaded before installing or adjusting the scope bases.
- Verify that the scope bases are securely mounted to avoid any accidents during use.
- Use only compatible Picatinny or Weaver scope rings to ensure proper fit and safety.
- Do not exceed the recommended torque specifications (20 inch lbs) when mounting the scope bases.
- Use a drip of blue Loctite on screws to prevent loosening during use.
- Be aware of the weight of the scope and ensure that the firearm can support it safely.

## Instructions for Installation and Usage

### 1. Preparation

- Gather the necessary tools: socket head Torx® wrench, blue Loctite.
- Ensure the firearm is unloaded and placed on a stable surface.

### 2. Installation

- Align the EGW Remington 700, 722, 40x Dual Extended Scope Bases with the factory scope mount holes on the receiver.
- Insert the Torx® screws into the predrilled holes of the scope bases.
- Tighten the screws using the Torx® wrench to a torque of 20 inch lbs.
- Apply a small amount of blue Loctite to the screws to prevent loosening.

### 3. Scope Mounting

- Choose compatible Picatinny or Weaver scope rings for your scope.
- Mount the scope onto the rail, adjusting the eye relief as necessary.
- Secure the scope rings according to the manufacturer's instructions.

### 4. Final Checks

- Doublecheck all screws and mounts for tightness.
- Ensure that the scope is properly aligned and securely mounted before use.

## **Disposal Instructions**

- Dispose of packaging materials in accordance with local recycling guidelines.
- If the product reaches the end of its life cycle, dispose of it responsibly. Check with local waste management for proper disposal methods for aluminum materials.

## **Contact Information for Further Support**

For any inquiries regarding safety, installation, or product performance, please refer to the manufacturer's contact information provided with your product packaging.

Thank you for your attention to these safety instructions. Enjoy your shooting experience with the EGW Remington 700, 722, 40x Dual Extended Scope Bases. Stay safe!
