

RUGER® M-77® LONG ACTION SCOPE BASES - EGW RUGER M-77 LONG ACTION 0 MOA (DRILL & TAP)

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW Ruger M-77 Long Action Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your shotgun with no drilling or tapping. Precision machined from extruded aluminum with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Lightweight Tactical mounts have a milled center channel for weight reduction. Full-width cross-slots are gauged to MIL-STD 1913 specs to +/- .002". Machined from ultra-rigid, extruded 6061 T6 aluminum. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite for mounting.

Safety Instruction Guide for RUGER® M77® Long Action Scope Bases

Introduction

Thank you for choosing the RUGER® M77® Long Action Scope Bases by EGW. This guide provides essential safety instructions and information to ensure the proper use and installation of your product. Please read this guide carefully before using the scope bases to ensure safe and effective operation.

General Safety Guidelines

- Always ensure that the firearm is unloaded before installing or adjusting the scope bases.
- Handle the product with care to avoid damage.
- Store the scope bases in a cool, dry place away from direct sunlight.
- Regularly inspect the scope bases for any signs of wear or damage.
- Follow all local laws and regulations regarding firearm accessories.

Specific Safety Precautions for Use

- Ensure that the scope bases are compatible with your RUGER® M77® Long Action model.
- Use only recommended scope rings (Picatinny or Weaver) to avoid compatibility issues.
- Do not exceed the recommended torque of 20 inch lbs when mounting the scope bases.
- Always use a drip of blue loctite on screws to secure the installation.
- Be cautious when adjusting the scope to avoid mishandling or dropping it.

Instructions for Installation and Usage

1. Preparation:

- Gather necessary tools: socket head Torx® wrench, blue loctite, and a clean workspace.
- Ensure the firearm is unloaded and pointed in a safe direction.

2. Installation Steps:

- Locate the factory scope mount holes on the receiver of your RUGER® M77®.
- Align the EGW scope base with the mount holes.
- Insert the socket head Torx® screws into the holes and handtighten.
- Use the Torx® wrench to tighten the screws to the recommended torque of 20 inch lbs.
- Apply a small drop of blue loctite to each screw to secure them in place.

3. Scope Mounting:

- Choose appropriate Picatinny or Weaver scope rings for your scope.
- Attach the scope to the rings and adjust it to your desired eye relief.
- Secure the scope rings according to the manufacturer's instructions.

4. Final Check:

- Inspect the installation to ensure everything is secure.
- Check that the scope is properly aligned and functions correctly.

Disposal Instructions

- Dispose of any packaging materials responsibly, following local recycling guidelines.
- If the scope bases are damaged or no longer usable, contact local waste management services for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the RUGER® M77® Long Action Scope Bases, please refer to the manufacturer's website or contact their customer service for assistance.

Conclusion

By following these safety instructions and guidelines, you can ensure the safe and effective use of your RUGER® M77® Long Action Scope Bases. Always prioritize safety and compliance with local regulations when using firearm accessories. Thank you for your attention to these important safety measures.
