

OVERSIZE FIRING PIN STOP FOR REAR SIGHT CUT - EGW O/S FIRING PIN STOP SER 80 45 FOR REAR SIGHT CUT BLUE

[Handgun Parts](#) > [Action Parts](#) > [Firing Pin Parts](#) > [Firing Pins](#)

Made to fit slides with a rear Bomar cut. EGW firing pin stops are wider than normal to prevent extractor from turning, which leads to more reliable ejection. Also, the firing pin stop is thicker to eliminate lateral movement. The inside corners are radiused to prevent cracking so the part lasts longer. The back corner has a .015 radius to break the corner but maintains a square edge to slow the slide opening. Rockwell tested: 48 Rc scale; Available for all models of the 1911. This part is not drop-in. It is oversized, and must be fit, in order to provide the customer with the benefits stated above. Series 80 firing pin stops will work in Series 70 guns. Series 70 firing pin stops will only work in Series 70 guns.

Attributes

- Name: [EGW O/S FIRING PIN STOP SER 80 45 FOR REAR SIGHT CUT BLUE](#)

Safety Instruction Guide for OVERSIZE FIRING PIN STOP FOR REAR SIGHT CUT

Introduction

Thank you for choosing the OVERSIZE FIRING PIN STOP FOR REAR SIGHT CUT. This product is designed to enhance the reliability and performance of your firearm. However, proper handling and installation are crucial to ensure safety and effectiveness. This guide provides essential safety instructions and guidelines for the safe use of this product.

General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Ensure you are familiar with the operation of your firearm before using this product.
- Keep this product out of reach of children and unauthorized users.
- Regularly inspect the firing pin stop for wear or damage.
- Follow all local laws and regulations regarding firearm modifications and ownership.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- This product is designed for use in Series 80 firearms only. Using it in Series 70 firearms may lead to malfunctions.
- Ensure that the firearm is unloaded before installing or handling the firing pin stop.
- Use caution when fitting the oversized firing pin stop, as improper fitting may lead to unsafe operation.
- Avoid using excessive force during installation to prevent damage to the firearm or the firing pin stop.
- Wear appropriate safety gear, including eye protection, when working with firearms.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools for installation, such as a gunsmithing hammer, punch, and file.

2. Installation Steps

- Remove the slide from the firearm according to the manufacturer's instructions.
- Carefully remove the existing firing pin stop using a punch and hammer, if necessary.
- Compare the new oversized firing pin stop with the old one to ensure proper fitment.
- Fit the new firing pin stop by carefully filing down any areas that may be too tight. Remember, it should be a snug fit but not overly tight.
- Ensure that the inside corners of the firing pin stop are properly radiused to prevent cracking.
- Once fitted, reassemble the slide and ensure that all components are functioning correctly.

3. PostInstallation Checks

- Conduct a function test to ensure that the firing pin stop operates as intended.
- Check for any lateral movement or misalignment during operation.
- If any issues are detected, consult a qualified gunsmith for assistance.

Disposal Instructions

- Dispose of any old parts, including the previous firing pin stop, in accordance with local regulations.
- Ensure that all components are disposed of in a manner that prevents unauthorized access.

Contact Information for Further Support

For any questions or concerns regarding the installation or use of the OVERSIZE FIRING PIN STOP, please consult a qualified gunsmith or reach out to the manufacturer for assistance.

By following these guidelines, you can ensure the safe and effective use of the OVERSIZE FIRING PIN STOP FOR REAR SIGHT CUT. Thank you for prioritizing safety in your firearm handling and maintenance.
