

# OVERSIZE FIRING PIN STOP FOR REAR SIGHT CUT - EGW O/S FIRING PIN STOP SER 70 9/38/40 FOR REAR SIGHT CUT BLUE

[Handgun Parts](#) > [Action Parts](#) > [Firing Pin Parts](#) > [Firing Pins](#)

Made to fit slides with a rear Bomar cut. EGW firing pin stops are wider than normal to prevent extractor from turning, which leads to more reliable ejection. Also, the firing pin stop is thicker to eliminate lateral movement. The inside corners are radiused to prevent cracking so the part lasts longer. The back corner has a .015 radius to break the corner but maintains a square edge to slow the slide opening. Rockwell tested: 48 Rc scale; Available for all models of the 1911. This part is not drop-in. It is oversized, and must be fit, in order to provide the customer with the benefits stated above. Series 80 firing pin stops will work in Series 70 guns. Series 70 firing pin stops will only work in Series 70 guns.

## Attributes

- Name: [EGW O/S FIRING PIN STOP SER 70 9/38/40 FOR REAR SIGHT CUT BLUE](#)
- Manufacturer: [EGW](#)
- Product no.: 296000520
- Mfr. No.: 10375

# **Safety Instruction Guide for OVERSIZE FIRING PIN STOP FOR REAR SIGHT CUT EGW O/S FIRING PIN STOP SER 70 9/38/40 FOR REAR SIGHT CUT BLUE**

## **Introduction**

Thank you for choosing the EGW O/S Firing Pin Stop. This product is designed to enhance the performance and reliability of your firearm. Please read this safety instruction guide carefully to ensure safe usage and compliance with EU safety regulations.

## **General Safety Guidelines**

- Always handle firearms with care and respect.
- Ensure that the firearm is unloaded before performing any installation or maintenance.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the firing pin stop for any signs of wear or damage.
- Report any unsafe conditions or incidents to the appropriate authorities.

## **Specific Safety Precautions for Use**

- This firing pin stop is intended for use with specific models of the 1911. Ensure compatibility before installation.
- Oversized components require fitting; do not attempt to force fit the part.
- Always wear appropriate eye protection when working with firearms and related components.
- If you are unsure about the installation process, consult a qualified gunsmith.

## **Instructions for Installation and Usage**

### **1. Compatibility Check**

- Ensure that your firearm is a Series 70 model if using a Series 70 firing pin stop. Series 80 stops may be used in Series 70 guns, but not vice versa.

### **2. Preparation**

- Gather necessary tools: gunsmithing tools and safety equipment.
- Ensure the firearm is unloaded and pointed in a safe direction.

### **3. Installation Steps**

- Remove the slide from the frame of the firearm.
- Carefully remove the existing firing pin stop.
- Compare the new firing pin stop with the old one to ensure proper fit.
- If necessary, fit the new firing pin stop by carefully filing down edges to achieve the desired fit. Maintain the part's integrity and avoid excessive material removal.
- Install the new firing pin stop in the slide.
- Reassemble the slide onto the frame and perform a function check to ensure proper operation.

### **4. PostInstallation**

- Inspect the installation for any signs of improper fitting or movement.
- Test the firearm in a safe environment to ensure that it functions correctly.

## **Disposal Instructions**

- Dispose of any old or damaged parts in accordance with local regulations.
- Do not dispose of firearms or firearm components in regular household waste. Check for local hazardous waste disposal options.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and usage of this product, please contact your local distributor or a qualified gunsmith for assistance.

This guide is designed to provide you with the necessary information to safely use the EGW O/S Firing Pin Stop. Adhering to these guidelines will help ensure a safe and effective experience with your firearm.
