

OVERSIZE FIRING PIN STOP FOR REAR SIGHT CUT - O/S FIRING PIN STOP SER 70 9/38/40 FOR REAR SIGHT CUT SS

[Handgun Parts](#) > [Action Parts](#) > [Firing Pin Parts](#) > [Firing Pins](#)

Made to fit slides with a rear Bomar cut. EGW firing pin stops are wider than normal to prevent extractor from turning, which leads to more reliable ejection. Also, the firing pin stop is thicker to eliminate lateral movement. The inside corners are radiused to prevent cracking so the part lasts longer. The back corner has a .015 radius to break the corner but maintains a square edge to slow the slide opening. Rockwell tested: 48 Rc scale; Available for all models of the 1911. This part is not drop-in. It is oversized, and must be fit, in order to provide the customer with the benefits stated above. Series 80 firing pin stops will work in Series 70 guns. Series 70 firing pin stops will only work in Series 70 guns.

Consumer Safety Instruction Guide for OVERSIZE FIRING PIN STOP

Introduction

Thank you for choosing the OVERSIZE FIRING PIN STOP FOR REAR SIGHT CUT. This product is designed to enhance the performance of your firearm by providing a more reliable ejection and eliminating lateral movement. It is essential to follow safety guidelines to ensure proper use and installation. This guide outlines important safety information, installation instructions, and disposal methods.

General Safety Guidelines

- Ensure that the product is used only with compatible firearm models as specified.
- Always handle firearms with care and follow all local laws and regulations regarding firearm use.
- Inspect the firing pin stop for any signs of damage or wear before installation.
- Keep this product out of reach of children and unauthorized users.
- In case of any safety concerns or product defects, stop using the product immediately and seek assistance.

Specific Safety Precautions for Use

- Before installation, ensure that the firearm is unloaded and pointed in a safe direction.
- Use appropriate protective gear, such as safety glasses, during installation.
- Do not attempt to modify the firing pin stop beyond the recommended fitting procedures.
- Regularly check the fit and function of the firing pin stop after installation to ensure continued safety and performance.
- Be aware of the potential hazards associated with improper installation, which can lead to firearm malfunction.

Instructions for Installation and Usage

1. Prepare the Firearm:

- Ensure the firearm is unloaded.
- Remove the slide from the frame according to the manufacturer's instructions.

2. Inspect the Firing Pin Stop:

- Check for any visible defects or damage.
- Ensure the firing pin stop is the correct size for your firearm model.

3. Installation:

- Position the oversized firing pin stop in the rear sight cut of the slide.
- Carefully fit the stop, ensuring it is aligned correctly without forcing it into place.
- Use a suitable tool to secure the firing pin stop, following the manufacturer's fitting instructions.

4. Testing:

- After installation, reassemble the slide and frame.
- Test the firearm in a safe environment to ensure proper functionality.
- Check for any unusual sounds or movements during operation.

5. Regular Maintenance:

- Periodically inspect the firing pin stop for wear and proper fit.
- Clean the area around the firing pin stop to prevent buildup of debris.

Disposal Instructions

- Dispose of any damaged or unusable parts in accordance with local regulations.
- Do not dispose of the firing pin stop in regular household waste.
- Consider recycling options where available.

Contact Information for Further Support

For any questions or concerns regarding the use or safety of the OVERSIZE FIRING PIN STOP, please refer to the manufacturer's website or customer service for assistance.

By following these guidelines, you can ensure safe and effective use of the OVERSIZE FIRING PIN STOP. Thank you for prioritizing safety in your firearm practices.
