

# PRACTICAL ALUMINUM RINGS - EGW 1" PRACTICAL RINGS .500" HIGH

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Scope Rings](#)

## Low Profile & High Strength

Vertically split, low-profile rings clamp to MIL-STD 1913 Picatinny rails or Weaver-style bases and provide an eye-pleasing, streamlined look without compromising strength. Ring halves clamp together with four, steel Allen head screws for a tight hold on optic and rail. Steel cross-bar locks in the rail slot or base to prevent slippage under recoil. Available for 1" and 30mm diameter scope tubes.

## Attributes

- Name: [EGW 1" PRACTICAL RINGS .500" HIGH](#)
- Manufacturer: [EGW](#)
- Product no.: 296000608
- Mfr. No.: 60200

# Safety Instruction Guide for PRACTICAL ALUMINUM RINGS EGW 1" PRACTICAL RINGS .500" HIGH

## Introduction

Thank you for purchasing the PRACTICAL ALUMINUM RINGS EGW 1" PRACTICAL RINGS .500" HIGH. This guide provides essential safety information and instructions to ensure safe and effective use of the product. Please read this guide carefully before using the rings.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to securely mount optics to firearms.
- Regularly inspect the rings for any signs of wear or damage before each use.
- Always follow the manufacturer's instructions for installation and usage.
- Keep this product out of reach of children and vulnerable individuals to prevent accidents.
- If you notice any defects or issues, discontinue use immediately and report it to the relevant authorities.

## Specific Safety Precautions for Use

- Ensure that the rings are compatible with your specific scope and firearm.
- Do not exceed the recommended torque settings when tightening screws to prevent stripping or damaging the rings.
- Avoid using the rings in extreme environmental conditions, such as excessive heat or cold, which may affect performance.
- Always check the tightness of the rings after transportation or storage, as they may loosen over time.
- Be mindful of recoil forces when using the mounted optic, as this can affect the integrity of the installation.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather necessary tools: a torque wrench and the provided Allen key.
- Ensure the firearm is unloaded and pointed in a safe direction before beginning installation.

### 2. Installation:

- Place the lower halves of the rings onto the Picatinny rail or Weaverstyle base.
- Align the scope tube with the ring halves, ensuring it is centered.
- Carefully place the upper halves of the rings onto the lower halves.
- Secure the ring halves together using the four steel Allen head screws provided.
- Use the torque wrench to tighten the screws to the manufacturer's recommended torque settings:
  - 1" rings – .750" high
  - 30mm rings – .840" high

### 3. Final Checks:

- After installation, check that the rings are securely fastened and that the scope is held firmly in place.
- Test the setup by gently shaking the firearm to ensure there is no movement in the rings or scope.

#### **4. Usage:**

- Always handle the firearm responsibly and follow all safety protocols.
- Regularly check the rings during use to ensure they remain secure and functional.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations for metal recycling.
- Do not dispose of the product in regular household waste to minimize environmental impact.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the PRACTICAL ALUMINUM RINGS EGW 1" PRACTICAL RINGS .500" HIGH, please refer to the manufacturer's contact points or consult the relevant authorities.

By following these safety instructions, you can ensure the safe and effective use of your PRACTICAL ALUMINUM RINGS. Thank you for choosing our product, and we hope you enjoy your experience.
