

# PRACTICAL ALUMINUM RINGS - EGW 1" PRACTICAL RINGS .750" HIGH SILVER

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Scope Rings](#)

## Low Profile & High Strength

Vertically split, low-profile rings clamp to MIL-STD 1913 Picatinny rails or Weaver-style bases and provide an eye-pleasing, streamlined look without compromising strength. Ring halves clamp together with four, steel Allen head screws for a tight hold on optic and rail. Steel cross-bar locks in the rail slot or base to prevent slippage under recoil. Available for 1" and 30mm diameter scope tubes.

## Attributes

- Name: [EGW 1" PRACTICAL RINGS .750" HIGH SILVER](#)
- Manufacturer: [EGW](#)
- Product no.: 296000722

# PRACTICAL ALUMINUM RINGS EGW 1" PRACTICAL RINGS .750" HIGH SILVER Safety Instructions

## Introduction

Thank you for choosing the PRACTICAL ALUMINUM RINGS EGW 1" PRACTICAL RINGS .750" HIGH SILVER. These scope rings are designed to provide a secure mounting solution for your optics while ensuring safety during use. This guide contains important safety information, installation instructions, and guidelines to help you use the product effectively and responsibly.

## General Safety Guidelines

- Ensure that the scope rings are compatible with your rifle and optics before installation.
- Regularly inspect the rings for any signs of wear or damage. Replace if necessary.
- Always follow the manufacturer's guidelines for mounting and using optics.
- Store the rings in a dry, cool place to prevent corrosion or damage.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Only use the rings with MILSTD 1913 Picatinny rails or Weaverstyle bases to ensure a secure fit.
- Make sure that all screws are tightened to the recommended torque specifications to avoid slippage during use.
- Avoid overtightening screws, as this may damage the rings or the rail.
- Do not modify the rings in any way, as this may compromise their integrity and safety.
- Be cautious during installation and usage to prevent injury from sharp edges.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools, including a torque wrench and Allen key.
- Ensure that the work area is clean and welllit.

### 2. Installation Steps

- Place the scope rings on the MILSTD 1913 Picatinny rail or Weaverstyle base.
- Align the rings to ensure they are straight and level.
- Insert the four steel Allen head screws into the ring halves.
- Use the torque wrench to tighten the screws to the manufacturer's recommended specifications.  
Ensure an even distribution of pressure to avoid warping.
- Doublecheck the alignment and tightness of all screws after installation.

### 3. Usage Guidelines

- After installation, check the stability of the optic before each use.
- If you notice any movement or slippage, retighten the screws as needed.
- Regularly inspect the rings during use, especially after heavy recoil or extended periods of shooting.

## **Disposal Instructions**

- When the rings reach the end of their life cycle, dispose of them responsibly.
- Check local regulations for proper disposal methods for aluminum and steel products.
- Consider recycling the materials if possible to minimize environmental impact.

## **Contact Information for Further Support**

For any questions or concerns regarding the PRACTICAL ALUMINUM RINGS EGW 1" PRACTICAL RINGS .750" HIGH SILVER, please refer to the manufacturer's website or consult your retailer for assistance.

Thank you for your attention to these safety instructions. Enjoy your shooting experience with confidence and safety.
