

# GI EXTRACTOR 45 SERIES 70 - EGW GI EXTRACTOR IMPROVED .45 ACP SERIES BLUED

[Handgun Parts](#) > [Action Parts](#) > [Extractor Parts](#) > [Extractors](#)

The steel available to us today is of much higher quality than what was available in 1911 when the 1911 pistol was first produced. Improvements to the entire manufacturing process include better alloys, more controlled furnaces, vacuum heat treat, better tooling, and finite element analysis-all of which EGW uses in production. EGW-specific Improvements to the original 1911 Extractor: EGW found that the extractor rides up the relief groove on the ammunition casing with each round fired: this dulls the hook from constantly banging the case, over time tension is lost, leading to a jammed case which adversely affects accuracy. If you experience a loss of tension or must continually retension your extractor, it is time to replace it. EGW fixed all 3 of these problems by reducing the distance from the bolt face to the extractor hook. They found that most hook designs are cut straight at a right angle. They machined theirs at an acute angle so that there is more surface area for the hook to bite into the case. Right angles are a weak point on other extractors so they put radii on both sides of theirs to increase strength. The hook is machined with a special cutter that leaves a nice clean radius in the inside corner where most extractors fail. Lastly EGW extractors are vacuum heat treated yielding great spring properties and the capability to maintain tension for 70,000+ rounds.

## Attributes

- Name: [EGW GI EXTRACTOR IMPROVED .45 ACP SERIES BLUED](#)
- Manufacturer: [EGW](#)
- Product no.: 296000784
- Mfr. No.: 10322
- Finish: Blued
- Weapon type: 1911
- Delivery weight: 0.045kg
- Shipping height: 13mm
- Shipping width: 114mm
- Shipping length: 140mm
- UPC: 841370117635

## Item details

Made in USA

US export classification: 0A501.x

# GI EXTRACTOR 45 SERIES Safety Instruction Guide

## Introduction

Thank you for choosing the GI EXTRACTOR 45 SERIES 70 EGW GI EXTRACTOR IMPROVED .45 ACP SERIES BLUED. This guide provides essential safety instructions and guidelines to ensure the safe use and maintenance of your product. Please read this guide carefully before using the extractor to understand potential hazards and how to mitigate them.

## General Safety Guidelines

- Ensure that the extractor is used only with compatible firearms and ammunition.
- Always follow the manufacturer's instructions for installation and usage.
- Regularly inspect the extractor for signs of wear or damage.
- Store the extractor in a safe place, out of reach of children and unauthorized users.
- Report any unsafe conditions or incidents involving the extractor to the relevant authorities.

## Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when using firearms equipped with the extractor.
- Do not attempt to modify or repair the extractor yourself. Seek professional assistance for any issues.
- Avoid using the extractor with ammunition that is not compatible or recommended by the manufacturer.
- Ensure that the extractor is properly installed before using the firearm.
- If you experience a loss of tension or jamming, stop using the firearm immediately and inspect the extractor.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is unloaded before installation.
- Remove the old extractor if applicable, following the manufacturer's instructions.
- Align the new extractor with the bolt face and secure it in place.
- Verify that the extractor is properly seated and functioning before using the firearm.

### 2. Usage:

- Load the firearm with compatible ammunition.
- Ensure that the extractor is functioning correctly before each use.
- Monitor the extractor's performance during use. If you notice any issues, cease operation immediately.

## Disposal Instructions

- Dispose of the extractor in accordance with local regulations.
- Do not dispose of the extractor in regular household waste.
- If the extractor is damaged or no longer usable, consider returning it to the manufacturer for proper disposal.

## Contact Information for Further Support

For any safety inquiries or additional support, please refer to the manufacturer's contact information provided with your product.

By following these safety guidelines, you can ensure a safer experience with your GI EXTRACTOR 45 SERIES 70 EGW GI EXTRACTOR IMPROVED .45 ACP SERIES BLUED. Always prioritize safety and compliance with the EU General Product Safety Regulation (GPSR) when using this product.
