

1911 ANGLE BORED BUSHING - EGW WCPI BLUE PRE-FIT BUSHING, COMMANDER

[Handgun Parts](#) > [Barrel Parts](#) > [Barrel Bushings](#)

Pre-Machined With The Proper Lockup Angle; Pre-Fit & Gunsmith Fit

Less time-consuming fitting because the proper lockup angle is pre-machined right into the bushing. Pre-Fit requires only minor fitting for installation onto Colt factory barrels. Gunsmith Fit requires fitting of both dimensions.

1911 ANGLE BORED BUSHING EGW WCPI BLUE PREFIT BUSHING, COMMANDER Safety Instruction Guide

Introduction

Thank you for choosing the 1911 Angle Bored Bushing EGW WCPI Blue PreFit Bushing for your Commander model. This guide is designed to provide you with essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document thoroughly before installation and use.

General Safety Guidelines

- Ensure that the bushing is compatible with your specific Colt factory barrel before installation.
- Always handle firearms and their components with care and respect.
- Keep the bushing and all firearm components out of reach of children and unauthorized users.
- Inspect the bushing for any visible damage before use. Do not use if damaged.
- Follow all local laws and regulations regarding firearm modifications and usage.
- If you are not a qualified gunsmith, seek professional assistance for installation.

Specific Safety Precautions for Use

- Always ensure that your firearm is unloaded before installing or removing the bushing.
- Use appropriate tools and safety equipment when handling the bushing and performing installation.
- Avoid using excessive force during installation to prevent damage to the bushing or firearm.
- Be aware of your surroundings when working on firearms to avoid accidents.
- If you experience any difficulty during installation, consult a professional gunsmith.

Instructions for Installation and Usage

Installation Instructions

1. Preparation:

- Ensure the firearm is unloaded and the work area is clean and welllit.
- Gather necessary tools, including a bushing wrench, and any other tools recommended for your specific firearm.

2. Remove the Old Bushing:

- Using the bushing wrench, carefully remove the old bushing from the barrel.

3. Install the New Bushing:

- Take the 1911 Angle Bored Bushing and align it with the barrel.
- Gently screw the bushing into place, ensuring it is seated properly.
- For PreFit installations, minor fitting may be required. Check the fit and adjust as necessary.
- For Gunsmith Fit installations, ensure that both dimensions are properly fitted. Consult a gunsmith if unsure.

4. Final Check:

- Once installed, check the bushing for secure fitment.
- Ensure that the lockup angle is correct and that there is no excessive movement.

Usage Instructions

- After installation, perform a function check of the firearm to ensure proper operation.
- Regularly inspect the bushing and surrounding components for wear or damage during routine firearm maintenance.

Disposal Instructions

- Dispose of any old or unused bushings in accordance with local regulations.
- Do not throw bushings or firearm components in regular household waste.
- Contact local waste management facilities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or concerns regarding the 1911 Angle Bored Bushing EGW WCPI Blue PreFit Bushing, please refer to the EUbased contact information provided with your product or consult a licensed firearms dealer.

By following these safety guidelines and instructions, you can ensure a safer experience with your 1911 Angle Bored Bushing. Thank you for prioritizing safety in your firearm handling and modifications.
