

# GTR REMINGTON 700 FLUTED FIRING PIN ASSEMBLY - GRE-TAN FIRING PIN ASSEMBLY, SILVER, SA

[Rifle Parts](#) > [Bolt Parts](#) > [Firing Pin Parts](#) > [Firing Pins](#)

## Precision Machined To Enhance Accuracy

CNC machined with tight tolerances to ensure consistent sear engagement and smooth, straight firing pin travel. The lightweight aluminum bolt shroud has close-tolerance bottom flats (.010" larger in areas) to minimize bolt side play. Gives consistent, cocking piece/sear height for repeatable engagement/release with all factory and aftermarket triggers. Firing pin is Flute Steel fully polished with a radius on tip to avoid breakage. Firing pin spring has reduced OD and ID to minimize unnecessary bending and drag. Assembly includes shroud, firing pin, cocking piece and firing pin spring. If you are purchasing a GTR Firing Pin Assembly for a PTG bolt it needs to be fitted by Gre-Tan. Contact Gre-Tan and they will install and fit it for free.

# GTR Remington 700 Fluted Firing Pin Assembly

## Safety Instructions

### Introduction

Thank you for choosing the GTR Remington 700 Fluted Firing Pin Assembly. This product is designed to enhance the performance of your firearm while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use, install, and dispose of the product safely.

### General Safety Guidelines

- Ensure that all firearm components are compatible before installation.
- Always handle firearms and their components with care and respect.
- Store the firing pin assembly in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the firing pin assembly for any signs of wear or damage.
- Follow local laws and regulations regarding the use and modification of firearms.
- Be aware of your surroundings and practice safe handling techniques at all times.

### Specific Safety Precautions for Use

- **Potential Hazards:**

- Improper installation can lead to malfunction or injury.
- Use of incompatible components may cause firearm failure.

- **Instructions for Avoiding Hazards:**

- Ensure that the firing pin assembly is fitted by a qualified professional if using with a PTG bolt.
- Always verify that the firearm is unloaded before performing any installation or maintenance.
- Use appropriate tools and follow the manufacturer's guidelines during installation.

- **Age Specific Warnings:**

- This product is intended for use by individuals 18 years of age or older.
- Keep this product away from children and inexperienced users.

### Instructions for Installation and Usage

#### 1. Installation:

- Ensure the firearm is completely unloaded and the chamber is clear.
- Remove the existing firing pin assembly from the bolt, following the manufacturer's instructions.
- Carefully install the GTR Firing Pin Assembly, ensuring all components (shroud, firing pin, cocking piece, and firing pin spring) are correctly positioned.
- If fitting for a PTG bolt, contact GreTan for professional installation.

#### 2. Usage:

- Once installed, perform a function test to ensure proper operation.
- Regularly check the firing pin assembly for wear and tear.
- If you notice any irregularities during use, discontinue use immediately and consult a professional.

## **Disposal Instructions**

- Dispose of the GTR Firing Pin Assembly in accordance with local regulations.
- Do not throw away in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the GTR Remington 700 Fluted Firing Pin Assembly, please refer to the manufacturer's contact information provided with your product packaging.

By following these safety instructions, you can ensure a safe and effective experience with your GTR Remington 700 Fluted Firing Pin Assembly. Thank you for prioritizing safety and responsible firearm use.
