

# ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

## 6MM CREEDMOOR MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

### Attributes

- Name: [FORSTER PRODUCTS, INC. 6MM CREEDMOOR MICROMETER SEATER DIE](#)

# ULTRA™ MICROMETER SEATER DIES FORSTER PRODUCTS, INC. Safety Instruction Guide

## Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES from Forster Products, Inc. This product is designed to help you achieve precision in reloading ammunition for your firearm. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always handle reloading equipment with care and follow all safety protocols.
- Ensure that you are using the product in a wellventilated area to avoid inhalation of any dust or particles.
- Keep the product out of reach of children and unauthorized users.
- Inspect all components before use to ensure they are in good condition and free from defects.
- Follow local laws and regulations regarding ammunition reloading and usage.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using reloading dies.
- Be aware of potential hazards, such as sharp edges on the dies and the risk of injury if proper handling techniques are not followed.
- Avoid using excessive force when adjusting the micrometer settings to prevent damage to the die.
- Ensure that the die is securely mounted in your reloading press before use.
- Keep your work area clean and organized to prevent accidents and ensure safe operation.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is turned off and unplugged before installation.
- Carefully remove the ULTRA™ MICROMETER SEATER DIE from its packaging.
- Insert the die into the reloading press, ensuring it is securely fastened.
- Adjust the Forster Cross Bolt Die Locking Ring to lock the die in place.

### 2. Usage:

- Set the micrometer adjustment to your desired bullet seating depth, using the increments provided (.0005 inch to .001 inch).
- Insert the bullet into the die and apply the appropriate amount of pressure to seat the bullet.
- Monitor the seating depth and make adjustments as necessary using the micrometer.
- After use, clean the die to remove any residue and store it in a safe, dry place.

## Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the die becomes damaged or unusable, contact your local waste management authority for proper disposal methods.
- Do not dispose of the die in regular household waste if it contains hazardous materials.

## **Contact Information for Further Support**

For any inquiries related to safety or product support, please refer to the manufacturer's website or contact their customer service department directly.

Thank you for prioritizing safety while using the ULTRA™ MICROMETER SEATER DIES. Your attention to these guidelines will help ensure a safe and enjoyable reloading experience.
