

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

224 VALKYRIE MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

ULTRA™ MICROMETER SEATER DIES FORSTER PRODUCTS, INC. Safety Instructions

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES by Forster Products, Inc. This product is designed to help reloaders create highquality ammunition with precision. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle reloading dies with care to prevent injury.
- Ensure that you are using the correct die for your specific cartridge, in this case, the 224 Valkyrie.
- Keep the workspace clean and organized to avoid accidents.
- Wear appropriate safety gear, including safety glasses and gloves, while reloading.
- Store the dies in a secure place away from children and pets.
- Read and understand all instructions before using the product.
- Report any unsafe product conditions or accidents to local authorities.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper use of the die can lead to dangerous ammunition.
- Always check for damage or wear on the die before use.

- **Avoiding Hazards:**

- Never attempt to modify the die or use it for purposes other than intended.
- Ensure that the micrometer adjustment is securely locked before use to prevent accidental changes in bullet seating depth.
- Do not exceed the recommended bullet seating depth adjustments.

- **AgeSpecific Warnings:**

- This product is intended for use by adults or under the supervision of an adult. Keep out of reach of children.

Instructions for Installation and Usage

- **Installation:**

1. Ensure that your reloading press is clean and free from debris.
2. Carefully remove the ULTRA™ MICROMETER SEATER DIE from its packaging.
3. Insert the die into the reloading press according to the manufacturer's instructions.
4. Tighten the Forster Cross Bolt Die Locking Ring securely to prevent any movement during use.

- **Usage:**

1. Adjust the micrometer setting to the desired bullet seating depth.
2. Use the micrometer adjustment to set the depth in increments of .0005 inch to .001 inch.
3. Place the cartridge case into the shell holder of the press.
4. Insert a bullet into the case mouth.

5. Pull the handle of the press to seat the bullet to the desired depth.
6. After each adjustment, check the seating depth by measuring the cartridge with calipers.

Disposal Instructions

- Dispose of any used or damaged reloading dies in accordance with local regulations.
- Do not throw the dies in regular household waste. Check for recycling options or designated disposal sites for metal products.

Contact Information for Further Support

For any inquiries regarding safety or product information, please refer to the manufacturer's website or contact the designated EBased support center. Always ensure you have the product details on hand for reference.

By following these guidelines, you will help ensure a safe and successful reloading experience with your ULTRA™ MICROMETER SEATER DIES. Thank you for your attention to safety!
