

# BUSHING BUMP NECK SIZING DIES - FORSTER PRODUCTS, INC. 26 NOSLER BUSHING BUMP NECK SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

These had-polished bushing style dies are a little different than traditional neck style bushing dies or full-length style bushing dies. Forster's Precision Bushing Bump Dies size the case neck and adjust the headspace length without sizing the body of the case. Includes a decapping assembly without an expander ball so your bushing selection determines the internal neck diameter. This die is only compatible with Forster bushings - does not work with Redding or Wilson bushings. When selecting a bushing size, choose a bushing approximately .002 inch smaller than a loaded round measures at the case neck. Bushings are available in increments of .001 inch. Bushings must be purchased separately.

# Safety Instruction Guide for Bushing Bump Neck Sizing Dies

## Introduction

Thank you for choosing the Bushing Bump Neck Sizing Dies from Forster Products, Inc. This guide provides essential safety instructions and usage recommendations to ensure a safe and effective experience with your product. Please read this guide carefully before use.

## General Safety Guidelines

- Always ensure that the work area is clean and free of distractions.
- Use proper personal protective equipment (PPE) such as safety glasses and gloves when handling the dies.
- Keep the dies out of the reach of children and pets to prevent accidents.
- Regularly inspect the dies for any signs of damage or wear before use.
- Follow all manufacturer instructions and recommendations to avoid misuse.

## Specific Safety Precautions for Use

- Use only Forster bushings with this die; other brands may not fit properly and could lead to accidents.
- When selecting a bushing size, choose a bushing that is approximately .002 inch smaller than the measured diameter of a loaded round at the case neck.
- Avoid applying excessive force when sizing cases to prevent damage to the die or the cases.
- Ensure that the die is securely mounted in your reloading press before use.
- Do not attempt to modify or alter the die in any way, as this may compromise safety and performance.

## Instructions for Installation and Usage

### 1. Installation:

- Securely mount the Bushing Bump Neck Sizing Die in your reloading press according to the manufacturer's instructions.
- Ensure that the decapping assembly is properly installed without the expander ball.

### 2. Usage:

- Insert the case into the die and ensure it is positioned correctly.
- Adjust the headspace length as needed without sizing the body of the case.
- Select the appropriate bushing based on the internal neck diameter required.
- Operate the press smoothly to size the neck of the case, avoiding any jerky movements.
- After sizing, inspect the case for proper dimensions and any signs of damage.

## Disposal Instructions

- Dispose of any damaged or worn dies in accordance with local regulations.
- Do not discard dies in regular household waste; check with local authorities for proper disposal methods.

## Contact Information for Further Support

For safety inquiries or additional support, please refer to the manufacturer's website or customer service resources.

Thank you for prioritizing safety while using the Bushing Bump Neck Sizing Dies. By following these guidelines, you can ensure a safe and effective reloading experience.
