

FULL LENGTH SIZING DIES - FORSTER PRODUCTS, INC. 6.5 PRC

FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die.

Safety Instruction Guide for FULL LENGTH SIZING DIES

Introduction

Thank you for choosing the Forster Products, Inc. Full Length Sizing Die for the 6.5 PRC cartridge. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before using the die to understand the safety precautions and proper usage.

General Safety Guidelines

- Always handle reloading equipment with care to avoid accidents.
- Ensure that your workspace is clean and organized to minimize risks.
- Keep all reloading components, including dies, out of reach of children and pets.
- Wear appropriate safety gear, including safety glasses and gloves, when reloading.
- Do not use the die for any purpose other than its intended use.
- Regularly check for any signs of wear or damage to the die before use.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Ensure that the die is securely mounted in your reloading press before use.
- Do not exceed the recommended load specifications for the 6.5 PRC cartridge.
- Always inspect cases for defects before resizing to prevent malfunctions.
- Use the EZ Out Expander button as instructed to maintain concentricity during the neck expanding operation.
- Avoid applying excessive force when resizing cases to prevent damage to the die or cases.
- If you experience any unusual resistance while operating the die, stop immediately and investigate the cause.

Instructions for Installation and Usage

1. Installation:

- Securely mount the Full Length Sizing Die into your reloading press according to the manufacturer's instructions.
- Ensure that the die is aligned properly to avoid misalignment during operation.

2. Usage:

- Prepare your cases by cleaning and inspecting them for any defects.
- Insert the case into the die, ensuring it is seated correctly.
- Use the handle of the reloading press to apply steady pressure, resizing the case as needed.
- Utilize the EZ Out Expander button to expand the neck of the case while maintaining alignment.
- Once completed, remove the case from the die and inspect it for proper sizing.

3. PostUsage:

- Clean the die after use to prevent residue buildup.
- Store the die in a safe, dry place when not in use.

Disposal Instructions

- Dispose of any defective or damaged dies in accordance with local regulations.
- Recycle any metal components where possible.
- Do not dispose of dies in regular household waste.
