

BUSHING BUMP NECK SIZING DIES - FORSTER PRODUCTS, INC. 6.5 PRC BUSHING BUMP NECK DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

These had-polished bushing style dies are a little different than traditional neck style bushing dies or full-length style bushing dies. Forster's Precision Bushing Bump Dies size the case neck and adjust the headspace length without sizing the body of the case. Includes a decapping assembly without an expander ball so your bushing selection determines the internal neck diameter. This die is only compatible with Forster bushings - does not work with Redding or Wilson bushings. When selecting a bushing size, choose a bushing approximately .002 inch smaller than a loaded round measures at the case neck. Bushings are available in increments of .001 inch. Bushings must be purchased separately.

Attributes

- Name: [FORSTER PRODUCTS, INC. 6.5 PRC BUSHING BUMP NECK DIE](#)

Bushing Bump Neck Sizing Dies Safety Instruction Guide

Introduction

Thank you for choosing the Forster Products Bushing Bump Neck Sizing Die for your reloading needs. This guide provides essential safety instructions and usage information to ensure safe and effective operation. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before using this die.
- Always wear appropriate safety gear, such as safety glasses, when working with reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Store the die and all reloading components out of reach of children and pets.
- Do not use the die for any purpose other than its intended use.
- Regularly inspect the die for any signs of wear or damage before use.

Specific Safety Precautions for Use

- Only use Forster bushings with this die; it is not compatible with Redding or Wilson bushings.
- When selecting a bushing size, choose one that is approximately .002 inch smaller than the measured case neck of a loaded round.
- Ensure that the die is securely mounted before use to prevent movement during operation.
- Do not attempt to modify the die or its components.
- If you experience any issues during operation, cease use immediately and consult the manufacturer for advice.

Instructions for Installation and Usage

1. Installation:

- Securely mount the die in your reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to avoid any movement during use.

2. Bushing Selection:

- Select the appropriate Forster bushing based on the internal neck diameter required.
- Remember that bushings must be purchased separately.

3. Operation:

- Insert the case into the die, ensuring it is properly aligned.
- Pull the handle of the reloading press to size the neck of the case without affecting the body.
- After sizing, carefully remove the case from the die.

4. Decapping:

- The die includes a decapping assembly without an expander ball, so ensure that you are using the correct bushing for your needs.

5. Maintenance:

- After each use, clean the die to remove any debris or residue.

- Store the die in a dry place to prevent rust and damage.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Ensure that all reloading materials are disposed of safely and responsibly.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product recalls, please reach out to the designated EU contact point provided with your product. It is important to stay informed about any updates or safety alerts related to your purchase.

Conclusion

Using the Forster Bushing Bump Neck Sizing Die responsibly and according to these guidelines will ensure a safe and effective reloading experience. Always prioritize safety and stay informed about best practices in reloading. Thank you for choosing Forster Products.
