Absolutely Essential For Accurate, Safe, Chamber Work

FORSTER SAAMI RIMLESS HEADSPACE GAUGES The Forster Headspace Gauges are precision instruments designed to help gunsmiths and firearm enthusiasts accurately measure the headspace of rifle chambers, ensuring firearms operate safely and reliably. Proper headspace is critical for preventing malfunctions such as misfires, case ruptures, or excessive wear, which can compromise both performance and safety. These gauges are indispensable when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Engineering: Machined to exacting SAAMI specifications, these gauges provide accurate measurements to verify that a firearm's chamber meets industry standards. Variety of Gauges: Available in "Go," "No-Go," and "Field" configurations, each gauge serves a specific purpose: Go Gauge: Confirms the minimum chamber size, ensuring the firearm will chamber and fire a cartridge safely. No-Go Gauge: Checks that the chamber does not exceed the maximum recommended headspace; the bolt should not close on this gauge. Field Gauge: Used to determine the absolute maximum safe headspace; if the bolt closes on this gauge, the firearm is considered unsafe to shoot. Durable Construction: Crafted from high-grade steel and hardened for longevity, these gauges withstand repeated use without compromising accuracy. Specifications: Material: Hardened steel Dimensions: Specific to each caliber and gauge type Compliance: Manufactured to SAAMI specifications Customer Insights: Customers commend the Forster Headspace Gauges for their precision and reliability. The clear differentiation between "Go," "No-Go," and "Field" gauges allows users to perform comprehensive headspace assessments confidently. The durable construction ensures that the gauges maintain their integrity and accuracy over time, even with frequent use. Users also appreciate the wide range of calibers available, making it easy to find the appropriate gauge for various firearms. Incorporating the Forster Headspace Gauges into your gunsmithing toolkit ensures that your rifle chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [FORSTER PRODUCTS, INC. 30-06 SPRINGFIELD GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 319306049
- Mfr. No.: HG3006G
- Cartridge: 30-06 Springfield, 25-06 Remington, 6.5-06, 270 Winchester, 8 mm-06, 338-06, 35 Whelen
- Colour: Steel
- Height: 0.47"
- Length: 2.049"
- Material: Steel
- Model Number: 30-06 Springfield GO
- Style: Go Gauge
- Weight: 0.112 lbs

- Width: 0.47"
- Delivery weight: 0.045kg
- Shipping height: 18mm
- Shipping width: 79mm
- Shipping length: 94mm
- UPC: 757253004636

Safety Instruction Guide for HEADSPACE GAUGES

Introduction

Thank you for choosing the HEADSPACE GAUGES by Forster Products, Inc. This guide provides essential safety instructions and guidelines to ensure the safe use of your gauge. Please read this document carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always ensure that the gauge is used in a safe and controlled environment.
- Inspect the gauge for any signs of damage or wear before each use.
- Keep the gauge out of reach of children and vulnerable individuals.
- Follow all local laws and regulations regarding firearms and ammunition handling.
- Ensure that all users of the gauge are trained and knowledgeable about firearms safety.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Headspace Measurement:** Always use the gauge to measure headspace before firing a used firearm. This ensures the chamber is safe and properly sized.
- **Chambering New Barrels:** When chambering a new barrel, use the gauge to verify the length of the chamber for accuracy and safety.
- **Gauge Compatibility:** Use the gauge only with compatible cartridges as specified in the product specifications. Misuse can lead to dangerous situations.
- **Storage:** Store the gauge in a secure location when not in use to prevent unauthorized access.
- **Use Protective Gear:** Always wear appropriate safety gear, such as safety glasses, when using the gauge.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and materials before beginning the measurement process.

2. Using the Gauge:

- Insert the gauge into the chamber of the firearm to check the headspace.
- For a GO gauge, the gauge should fit snugly without forcing it. If it does not fit, consult a qualified gunsmith.
- For a NOGO gauge, it should not fit into the chamber. If it does, the headspace is too long, and the firearm should not be fired.

3. PostUse:

- After use, clean the gauge to remove any debris or residue.
- Store the gauge in its designated case or location to protect it from damage.

Disposal Instructions

- Dispose of the gauge in accordance with local regulations for metal products.
- If the gauge is damaged or no longer usable, consider recycling it at a facility that accepts metal products.

Contact Information for Further Support

For any questions or concerns regarding the use of your HEADSPACE GAUGES, please refer to the manufacturer's website or contact their support team directly. Always ensure you have the latest information regarding safety updates and recalls.

By following these safety instructions, you can ensure the safe and effective use of your HEADSPACE GAUGES. Thank you for prioritizing safety and responsible firearm handling.
