In .001" Increments For Precise Measurement Of "Match Grade" Chambers

FORSTER 7.62 MATCH GAUGES The Forster 7.62 Match Gauges are precision instruments designed for match shooters, armorers, and sportsmen who require exact headspace measurements for rifles chambered in .308 Winchester or .223 Remington. These gauges cover every size chamber from Go to Field in .001" increments, allowing users to monitor locking lug and chamber wear on high-quality, match-grade barrels. Key Features: Comprehensive Measurement Range: Offers gauges in .001" increments from Go to Field, enabling precise monitoring of chamber dimensions. High-Speed Steel Construction: Each gauge is made from hardened and ground high-speed steel, ensuring durability and long-lasting accuracy. Caliber Compatibility: Specifically designed for rifles chambered in .308 Winchester or .223 Remington, catering to popular match-grade calibers. Specifications: Material: Hardened high-speed steel Measurement Increments: .001" Caliber Compatibility: .308 Winchester and .223 Remington Customer Insights: Customers appreciate the Forster 7.62 Match Gauges for their precision and the ability to monitor chamber wear accurately. The .001" increments provide detailed insights into chamber dimensions, which is particularly valuable for maintaining match-grade barrels. The durable construction ensures that the gauges remain reliable over extended periods of use. Incorporating the Forster 7.62 Match Gauges into your gunsmithing toolkit allows for meticulous monitoring of chamber dimensions, ensuring the longevity and performance of your match-grade firearms.

MIXING AND MATCHING BRANDS OF HEADSPACE GAUGES Don't do it !! That's the short answer, here's why. It boils down to tolerance stacking. Each Headspace Gauge manufacturer works within a range specified by SAAMI. Manufacturer "A" may work at the high end of the range while Manufacturer "B's" gauges are in the middle of the tolerance range. Mixing the two could give an inaccurate reading. By sticking with one brand within a particular caliber, you will eliminate a variable. If you have a Forster, .308 GO gauge, get a Forster, .308 NO GO. Use Clymer with Clymer and Manson Precision with Manson Precision, etc. You can use any brand of headspace gauge with any other brand of chambering reamer. e.g. Forster Headspace Gauges with Clymer Reamers, Manson Precision Gauges with JGS Reamers, etc.

Attributes

- Name: [FORSTER PRODUCTS, INC. .308 \(7.62 NATO\)1.632" MATCH GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 319308632
- Mfr. No.: HG308-1.6320-SP
- Cartridge: 308 Winchester
- Colour: Steel
- Height: 0.469"
- Length: 1.632"

- Material: Steel
- Model Number: .308 (7.62 Nato)1.632" Match
- Style: Match Gauge
- Weight: 0.103 lbs
- Width: 0.469"
- Delivery weight: 0.036kg
- Shipping height: 2mm
- Shipping width: 102mm

Safety Instruction Guide for 7.62 MATCH GAUGES

Introduction

Thank you for choosing the 7.62 MATCH GAUGES by Forster Products, Inc. This precision tool is designed to measure the headspace dimension of rifle chambers, specifically for .308 Win., .223, or .22LR cartridges. Proper use of this gauge ensures the safety and performance of your firearm. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always handle firearms with respect and care.
- Ensure the firearm is unloaded before using the gauge.
- Use the gauge only on compatible firearms as specified.
- Store the gauge in a safe and dry place when not in use.
- Keep the gauge out of reach of children and unauthorized users.
- Regularly inspect the gauge for any signs of wear or damage before use.
- Follow all local laws and regulations regarding firearms and ammunition.

Specific Safety Precautions for Use

- **Potential Hazards:** Improper use of the gauge may lead to incorrect measurements, which can result in unsafe firearm operation.
- **Avoiding Hazards:**
 - Always verify that the gauge is clean and free from debris before use.
 - Do not attempt to modify or alter the gauge in any way.
 - Ensure that you are using the correct size gauge for your specific firearm.
 - If you experience any resistance while inserting the gauge, do not force it. Remove it and inspect for issues.
- **AgeRelated Warnings:** This product is intended for use by adults only. Ensure that minors are supervised by a responsible adult when handling firearms or gauges.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is completely unloaded and pointed in a safe direction.
- Gather all necessary tools and ensure a clean working environment.

2. Using the Gauge:

- Select the appropriate gauge size based on the specifications of your firearm.
- Insert the gauge into the chamber of the firearm gently.
- Allow the gauge to seat fully without applying excessive force.
- Check the reading on the gauge to determine the headspace measurement.
- Remove the gauge carefully after use.

3. PostUsage:

- Clean the gauge after each use to maintain its accuracy.
- Store the gauge in its original packaging or a protective case.

Disposal Instructions

- Dispose of the gauge responsibly if it becomes damaged or worn beyond safe use.
- Do not dispose of the gauge in regular household waste. Instead, follow local regulations for disposal of metal products.
- Consider recycling options where available.

Contact Information for Further Support

For further assistance, please refer to the manufacturer's website or contact their customer service for support related to safety, usage, or product inquiries.

By following these safety guidelines and instructions, you can ensure the proper and safe use of the 7.62 MATCH GAUGES. Your safety and the performance of your firearm are our top priorities. Thank you for your attention to these important instructions.
