In .001" Increments For Precise Measurement Of "Match Grade" Chambers

FORSTER 7.62 MATCH GAUGES The Forster 7.62 Match Gauges are precision instruments designed for match shooters, armorers, and sportsmen who require exact headspace measurements for rifles chambered in .308 Winchester or .223 Remington. These gauges cover every size chamber from Go to Field in .001" increments, allowing users to monitor locking lug and chamber wear on high-quality, match-grade barrels. Key Features: Comprehensive Measurement Range: Offers gauges in .001" increments from Go to Field, enabling precise monitoring of chamber dimensions. High-Speed Steel Construction: Each gauge is made from hardened and ground high-speed steel, ensuring durability and long-lasting accuracy. Caliber Compatibility: Specifically designed for rifles chambered in .308 Winchester or .223 Remington, catering to popular match-grade calibers. Specifications: Material: Hardened high-speed steel Measurement Increments: .001" Caliber Compatibility: .308 Winchester and .223 Remington Customer Insights: Customers appreciate the Forster 7.62 Match Gauges for their precision and the ability to monitor chamber wear accurately. The .001" increments provide detailed insights into chamber dimensions, which is particularly valuable for maintaining match-grade barrels. The durable construction ensures that the gauges remain reliable over extended periods of use. Incorporating the Forster 7.62 Match Gauges into your gunsmithing toolkit allows for meticulous monitoring of chamber dimensions, ensuring the longevity and performance of your match-grade firearms.

MIXING AND MATCHING BRANDS OF HEADSPACE GAUGES Don't do it !! That's the short answer, here's why. It boils down to tolerance stacking. Each Headspace Gauge manufacturer works within a range specified by SAAMI. Manufacturer "A" may work at the high end of the range while Manufacturer "B's" gauges are in the middle of the tolerance range. Mixing the two could give an inaccurate reading. By sticking with one brand within a particular caliber, you will eliminate a variable. If you have a Forster, .308 GO gauge, get a Forster, .308 NO GO. Use Clymer with Clymer and Manson Precision with Manson Precision, etc. You can use any brand of headspace gauge with any other brand of chambering reamer. e.g. Forster Headspace Gauges with Clymer Reamers, Manson Precision Gauges with JGS Reamers, etc.

Attributes

- Name: [FORSTER PRODUCTS, INC. .308 \(7.62 NATO\)1.636" MATCH GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 319308636
- Mfr. No.: HG308-1.6360-SP
- Cartridge: 308 Winchester
- Colour: Steel
- Height: 0.469"
- Length: 1.636"

- Material: Steel
- Model Number: .308 (7.62 Nato)1.636" Match
- Style: Match Gauge
- Weight: 0.103 lbs
- Width: 0.469"
- Delivery weight: 0.023kg
- Shipping height: 18mm
- Shipping width: 18mm
- Shipping length: 51mm
- UPC: 757253992261

Safety Instruction Guide for 7.62 MATCH GAUGES

Introduction

Thank you for choosing the 7.62 MATCH GAUGES by Forster Products, Inc. This guide provides essential safety instructions and information to ensure the safe and effective use of your headspace gauge. Please read this document carefully before using the product.

General Safety Guidelines

- Always handle the gauge with care to avoid injury.
- Keep the gauge out of reach of children and vulnerable individuals.
- Inspect the gauge before each use for any signs of damage or wear.
- Use the gauge only for its intended purpose as described in this guide.
- If you notice any irregularities or malfunctions, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Ensure that you are familiar with the rifle you are measuring before using the gauge.
- Always wear appropriate safety gear, such as safety glasses, when using the gauge.
- Do not force the gauge into the chamber; it should fit snugly without excessive pressure.
- Use the gauge in a welllit area to ensure accurate readings.
- Avoid using the gauge in wet or damp conditions to prevent rust and damage.

Instructions for Installation and Usage

1. Preparation:

- Ensure the rifle is unloaded and pointed in a safe direction.
- Clean the chamber of the rifle to remove any debris or obstructions.

2. Using the Gauge:

- Select the appropriate gauge size based on the specifications of your rifle.
- Insert the gauge into the chamber gently.
- Rotate the gauge slightly to ensure it is seated properly.
- Check the reading on the gauge. The gauge will indicate whether the chamber is within acceptable headspace limits.
- Record the measurement for future reference.

3. PostUse Care:

- After use, carefully remove the gauge from the chamber.
- Clean the gauge with a soft cloth to remove any residue.
- Store the gauge in a dry place to prevent corrosion.

Disposal Instructions

- Dispose of the gauge responsibly at a local recycling facility if it becomes damaged beyond use.
- Do not dispose of the gauge in regular household waste.
- Follow local regulations regarding the disposal of metal products.

Contact Information for Further Support

For any inquiries or support regarding the 7.62 MATCH GAUGES, please refer to the manufacturer's contact information provided with your product. Ensure you have the product details ready for a more efficient service.

Thank you for your attention to these safety guidelines. Your safety and the proper use of the 7.62 MATCH GAUGES are our top priorities.
