In .001" Increments For Precise Measurement Of "Match Grade" Chambers

FORSTER 7.62 MATCH GAUGES The Forster 7.62 Match Gauges are precision instruments designed for match shooters, armorers, and sportsmen who require exact headspace measurements for rifles chambered in .308

Winchester or .223 Remington. These gauges cover every size chamber from Go to Field in .001" increments, allowing users to monitor locking lug and chamber wear on high-quality, match-grade barrels. Key Features:

Comprehensive Measurement Range: Offers gauges in .001" increments from Go to Field, enabling precise monitoring of chamber dimensions. High-Speed

Steel Construction: Each gauge is made from hardened and ground high-speed steel, ensuring durability and long-lasting accuracy. Caliber

Compatibility: Specifically designed for rifles chambered in .308 Winchester or .223 Remington, catering to popular match-grade calibers. Specifications:

Material: Hardened high-speed steel Measurement Increments: .001" Caliber Compatibility: .308 Winchester and .223 Remington Customer Insights:

Customers appreciate the Forster 7.62 Match Gauges for their precision and the ability to monitor chamber wear accurately. The .001" increments provide detailed insights into chamber dimensions, which is particularly valuable for maintaining match-grade barrels. The durable construction ensures that the gauges remain reliable over extended periods of use. Incorporating the Forster 7.62 Match Gauges into your gunsmithing toolkit allows for meticulous monitoring of chamber dimensions, ensuring the longevity and performance of your match-grade firearms.

MIXING AND MATCHING BRANDS OF HEADSPCAE GAUGES Don't do it !!

That's the short answer, here's why. It boils down to tolerance stacking. Each Headspace Gauge manufacturer works within a range specified by SAAMI.

Manufacturer "A" may work at the high end of the range while Manufacturer "B's" gauges are in the middle of the tolerance range. Mixing the two could give an inaccurate reading. By sticking with one brand within a particular caliber, you will eliminate a variable. If you have a Forster, .308 GO gauge, get a Forster, .308 NO GO. Use Clymer with Clymer and Manson Precision with Manson Precision, etc. You can use any brand of headspace gauge with any other brand of chambering reamer. e.g. Forster Headspace Gauges with Clymer Reamers, Manson Precision Gauges with JGS Reamers, etc.

Attributes

- Name: [FORSTER PRODUCTS, INC. .308 \(7.62 NATO\)1.637" MATCH GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 319308637
- Mfr. No.: HG308-1.6370-SP

Safety Instruction Guide for 7.62 MATCH GAUGES

Introduction

Thank you for choosing the 7.62 MATCH GAUGES from Forster Products, Inc. This guide provides important safety instructions and guidelines to ensure the safe use of the product. Please read this document carefully before using the gauges.

General Safety Guidelines

- Ensure that you are familiar with the operation of your rifle and the components of the headspace gauge before use.
- Always handle the gauges with care to avoid damage and maintain their precision.
- Store the gauges in a safe and dry place, away from children and vulnerable individuals.
- Regularly inspect the gauges for any signs of wear or damage before each use.
- In case of any doubt regarding the safety or functionality of the product, consult a qualified professional.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when using the gauges.
- Do not use the gauges in conditions that may compromise their accuracy, such as extreme temperatures or moisture.
- Ensure that the rifle is unloaded and the chamber is clear before using the gauge.
- Only use the gauges for their intended purpose, specifically for measuring headspace in .308 Win., .223, or .22LR rifles.
- Keep the gauges away from any moving parts of the firearm during use to prevent accidents.

Instructions for Installation and Usage

1. Preparation:

- Ensure your workspace is clean and free of distractions.
- Gather all necessary tools and equipment, including the headspace gauges.

2. Using the Gauge:

- Select the appropriate gauge for the measurement you wish to take.
- Insert the gauge into the chamber of the rifle, ensuring it fits snugly.
- Gently close the bolt on the rifle to check the fit of the gauge.
- If the bolt closes easily, the headspace is within acceptable limits. If the bolt does not close, the headspace may be excessive.
- Repeat the process with different gauges as needed to measure various headspace dimensions.

3. PostUse Care:

- After use, clean the gauges with a soft cloth to remove any debris or moisture.
- Store the gauges in their designated case to protect them from damage.

Disposal Instructions

- Dispose of any damaged or worn gauges in accordance with local regulations.
- If you are unsure about how to properly dispose of the product, consult your local waste management authority for guidance.

Contact Information for Further Support

For any safety inquiries or further support related to the 7.62 MATCH GAUGES, please refer to the contact information provided on the product packaging or visit the manufacturer's website.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of the 7.62 MATCH GAUGES. Always prioritize safety and consult professionals when in doubt. Thank you for choosing Forster Products, Inc.
