## Absolutely Essential For Accurate, Safe, Chamber Work

FORSTER SAAMI RIMLESS HEADSPACE GAUGES The Forster Headspace Gauges are precision instruments designed to help gunsmiths and firearm enthusiasts accurately measure the headspace of rifle chambers, ensuring firearms operate safely and reliably. Proper headspace is critical for preventing malfunctions such as misfires, case ruptures, or excessive wear, which can compromise both performance and safety. These gauges are indispensable when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Engineering: Machined to exacting SAAMI specifications, these gauges provide accurate measurements to verify that a firearm's chamber meets industry standards. Variety of Gauges: Available in "Go," "No-Go," and "Field" configurations, each gauge serves a specific purpose: Go Gauge: Confirms the minimum chamber size, ensuring the firearm will chamber and fire a cartridge safely. No-Go Gauge: Checks that the chamber does not exceed the maximum recommended headspace; the bolt should not close on this gauge. Field Gauge: Used to determine the absolute maximum safe headspace; if the bolt closes on this gauge, the firearm is considered unsafe to shoot. Durable Construction: Crafted from high-grade steel and hardened for longevity, these gauges withstand repeated use without compromising accuracy. Specifications: Material: Hardened steel Dimensions: Specific to each caliber and gauge type Compliance: Manufactured to SAAMI specifications Customer Insights: Customers commend the Forster Headspace Gauges for their precision and reliability. The clear differentiation between "Go," "No-Go," and "Field" gauges allows users to perform comprehensive headspace assessments confidently. The durable construction ensures that the gauges maintain their integrity and accuracy over time, even with frequent use. Users also appreciate the wide range of calibers available, making it easy to find the appropriate gauge for various firearms. Incorporating the Forster Headspace Gauges into your gunsmithing toolkit ensures that your rifle chambers are within safe operational limits, enhancing both safety and performance.

## Attributes

- Name: [FORSTER PRODUCTS, INC. 280 REMINGTON NO-GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 319418101
- Mfr. No.: HG0280N
- Cartridge: 280 Remington
- Colour: Steel
- Height: 0.469"
- Length: 2.104"
- Material: Steel
- Model Number: 280 Remington NO GO
- Style: No Go Gauge
- Weight: 0.116 lbs

- Width: 0.469"
- Delivery weight: 0.05kg
- Shipping height: 18mm
- Shipping width: 79mm
- Shipping length: 81mm
- UPC: 757253004469

# Safety Instruction Guide for HEADSPACE GAUGES FORSTER PRODUCTS, INC. 280 REMINGTON NOGO GAUGE

## Introduction

Thank you for choosing the HEADSPACE GAUGE by Forster Products, Inc. This product is designed to accurately measure and test the length of the chamber of your rifle, ensuring a safe and effective chambering process. Please read this safety instruction guide carefully to ensure proper use and to understand the safety measures necessary for your protection.

## General Safety Guidelines

- Always check the headspace before firing a used gun.
- Ensure that the gauge is used in accordance with the manufacturer's instructions.
- Keep the gauge out of reach of children and vulnerable individuals.
- Store the gauge in a safe, dry place when not in use.
- Regularly inspect the gauge for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Use the gauge only for its intended purpose: measuring headspace in firearms.
- Do not attempt to modify or alter the gauge in any way.
- Ensure that the rifle is unloaded and pointed in a safe direction before using the gauge.
- Wear appropriate safety gear, including eye protection, when using the gauge.
- If unsure about how to use the gauge, consult a qualified gunsmith or firearms expert.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the rifle is completely unloaded.
- Gather all necessary tools and equipment for measuring headspace.

### 2. Using the Gauge:

- Insert the NOGO gauge into the chamber of the rifle.
- Gently close the bolt on the rifle. The bolt should not close completely if the headspace is correct.
- If the bolt closes completely, it indicates that the headspace is too long, and the rifle should not be fired until it has been checked by a qualified gunsmith.

### 3. PostUse:

- Remove the gauge from the chamber after use.
- Clean the gauge as necessary to maintain its accuracy and longevity.
- Store the gauge in a protective case to prevent damage.

## Disposal Instructions

- Dispose of the gauge in accordance with local regulations regarding metal waste.
- Do not throw the gauge in regular household waste.

- If the gauge is damaged or no longer usable, consider recycling it if possible.

## **Contact Information for Further Support**

For any safety inquiries or further support regarding the HEADSPACE GAUGE, please refer to the manufacturer's contact information included with the product packaging. It is important to have access to the appropriate resources for any questions or concerns you may have.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience using the HEADSPACE GAUGE from Forster Products, Inc. Always prioritize safety and consult professionals when in doubt. Thank you for your attention to these important guidelines.
