## Absolutely Essential For Accurate, Safe, Chamber Work

FORSTER SAAMI RIMLESS HEADSPACE GAUGES The Forster Headspace Gauges are precision instruments designed to help gunsmiths and firearm enthusiasts accurately measure the headspace of rifle chambers, ensuring firearms operate safely and reliably. Proper headspace is critical for preventing malfunctions such as misfires, case ruptures, or excessive wear, which can compromise both performance and safety. These gauges are indispensable when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Engineering: Machined to exacting SAAMI specifications, these gauges provide accurate measurements to verify that a firearm's chamber meets industry standards. Variety of Gauges: Available in "Go," "No-Go," and "Field" configurations, each gauge serves a specific purpose: Go Gauge: Confirms the minimum chamber size, ensuring the firearm will chamber and fire a cartridge safely. No-Go Gauge: Checks that the chamber does not exceed the maximum recommended headspace; the bolt should not close on this gauge. Field Gauge: Used to determine the absolute maximum safe headspace; if the bolt closes on this gauge, the firearm is considered unsafe to shoot. Durable Construction: Crafted from high-grade steel and hardened for longevity, these gauges withstand repeated use without compromising accuracy. Specifications: Material: Hardened steel Dimensions: Specific to each caliber and gauge type Compliance: Manufactured to SAAMI specifications Customer Insights: Customers commend the Forster Headspace Gauges for their precision and reliability. The clear differentiation between "Go," "No-Go," and "Field" gauges allows users to perform comprehensive headspace assessments confidently. The durable construction ensures that the gauges maintain their integrity and accuracy over time, even with frequent use. Users also appreciate the wide range of calibers available, making it easy to find the appropriate gauge for various firearms. Incorporating the Forster Headspace Gauges into your gunsmithing toolkit ensures that your rifle chambers are within safe operational limits, enhancing both safety and performance.

## Attributes

- Name: [FORSTER PRODUCTS, INC. 6.5X55MM SWEDE NO-GO GAUGE HEADSPACE GAUGE STEEL](#)

# Safety Instruction Guide for HEADSPACE GAUGES FORSTER PRODUCTS, INC. 6.5X55MM SWEDE NOGO GAUGE

## Introduction

Thank you for choosing the HEADSPACE GAUGES FORSTER PRODUCTS, INC. 6.5X55MM SWEDE NOGO GAUGE. This product is designed to accurately measure and test the length of the chamber of your rifle, ensuring a safe and reliable shooting experience. Please read this safety instruction guide carefully to ensure proper use and handling of the gauge.

## General Safety Guidelines

- Always inspect the gauge before use to ensure it is free from any damage or defects.
- Use the gauge only for its intended purpose as specified in this manual.
- Keep the gauge out of reach of children and unauthorized users.
- Store the gauge in a safe, dry location when not in use.
- Regularly check for updates on product recalls or safety notices through official channels.

## Specific Safety Precautions for Use

- Ensure you are familiar with the specific headspace requirements for your firearm before using the gauge.
- Use protective eyewear when measuring headspace to protect your eyes from potential debris.
- Do not force the gauge into the chamber. If resistance is encountered, stop and reassess the situation.
- Always handle the gauge with care to avoid dropping or damaging it.
- If the gauge does not fit properly, do not attempt to modify it. Consult a qualified gunsmith for assistance.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Clean the chamber of the firearm to remove any debris or obstructions.

### 2. Using the NoGo Gauge:

- Insert the NoGo gauge into the chamber of the firearm.
- Gently push the gauge into the chamber until it stops.
- If the bolt closes fully on the NoGo gauge, the headspace is too large, and the firearm may be unsafe to use. If the bolt does not close, the headspace is within acceptable limits.

### 3. PostUse:

- Remove the gauge from the chamber and inspect it for any signs of wear or damage.
- Clean the gauge with a soft, dry cloth to remove any contaminants.
- Store the gauge in its original packaging or a protective case.

## Disposal Instructions

- Dispose of the gauge in accordance with local regulations for metal products.
- If the gauge is damaged or no longer usable, contact local waste management services for proper disposal.

disposal methods.

## **Contact Information for Further Support**

For any questions regarding the use or safety of this product, please refer to the manufacturer's website or contact your local retailer for assistance.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with the HEADSPACE GAUGES FORSTER PRODUCTS, INC. 6.5X55MM SWEDE NOGO GAUGE. Always prioritize safety and consult a professional if you have any doubts or concerns regarding your firearm's headspace.
