Absolutely Essential For Accurate, Safe, Chamber Work

FORSTER SAAMI RIMLESS HEADSPACE GAUGES The Forster Headspace Gauges are precision instruments designed to help gunsmiths and firearm enthusiasts accurately measure the headspace of rifle chambers, ensuring firearms operate safely and reliably. Proper headspace is critical for preventing malfunctions such as misfires, case ruptures, or excessive wear, which can compromise both performance and safety. These gauges are indispensable when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Engineering: Machined to exacting SAAMI specifications, these gauges provide accurate measurements to verify that a firearm's chamber meets industry standards. Variety of Gauges: Available in "Go," "No-Go," and "Field" configurations, each gauge serves a specific purpose: Go Gauge: Confirms the minimum chamber size, ensuring the firearm will chamber and fire a cartridge safely. No-Go Gauge: Checks that the chamber does not exceed the maximum recommended headspace; the bolt should not close on this gauge. Field Gauge: Used to determine the absolute maximum safe headspace; if the bolt closes on this gauge, the firearm is considered unsafe to shoot. Durable Construction: Crafted from high-grade steel and hardened for longevity, these gauges withstand repeated use without compromising accuracy. Specifications: Material: Hardened steel Dimensions: Specific to each caliber and gauge type Compliance: Manufactured to SAAMI specifications Customer Insights: Customers commend the Forster Headspace Gauges for their precision and reliability. The clear differentiation between "Go," "No-Go," and "Field" gauges allows users to perform comprehensive headspace assessments confidently. The durable construction ensures that the gauges maintain their integrity and accuracy over time, even with frequent use. Users also appreciate the wide range of calibers available, making it easy to find the appropriate gauge for various firearms. Incorporating the Forster Headspace Gauges into your gunsmithing toolkit ensures that your rifle chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [FORSTER PRODUCTS, INC. 30-40 KRAG GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 319418230
- Mfr. No.: BG3040G
- Cartridge: 30-40 Krag
- Colour: Steel
- Height: 0.44"
- Length: 1.19"
- Material: Steel
- Model Number: 30-40 Krag GO
- Style: Go Gauge
- Weight: 0.076 lbs
- Width: 0.44"

- Delivery weight: 0.032kg
- Shipping height: 18mm
- Shipping width: 89mm
- Shipping length: 86mm
- UPC: 757253002908

Safety Instruction Guide for HEADSPACE GAUGES

Introduction

Thank you for choosing the HEADSPACE GAUGES from Forster Products, Inc. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this manual carefully before use to understand the potential hazards and how to avoid them.

General Safety Guidelines

- Always ensure that the gauge is used in accordance with the manufacturer's instructions.
- Inspect the gauge for any damage or wear before each use. Do not use if damaged.
- Keep the gauge out of reach of children and unauthorized users.
- Use the gauge only for its intended purpose, which is to measure and test the headspace of firearms.
- Wear appropriate safety gear, such as safety glasses, when using the gauge.
- Do not modify the gauge in any way, as this may compromise safety.
- If you experience any issues or have concerns about the gauge, discontinue use and seek assistance.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before using the gauge.
- Always check the headspace before firing a used gun to ensure safety.
- Follow all local laws and regulations regarding the use of firearms and associated tools.
- Use the gauge in a welllit and clean environment to avoid accidents.
- Do not attempt to measure headspace while the firearm is in a potentially dangerous position.
- If you are unsure about how to use the gauge, consult a professional or refer to additional resources.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and safe to handle.
- Gather all necessary tools and safety equipment.

2. Using the Gauge:

- Insert the GO gauge into the chamber of the firearm.
- Ensure that the gauge fits snugly but does not require excessive force.
- If the gauge does not fit, do not attempt to force it. This may indicate an unsafe headspace condition.
- Remove the gauge and inspect it for any signs of wear or damage after use.

3. Checking Headspace:

- For a proper headspace measurement, the GO gauge should fit freely in the chamber.
- If the NOGO gauge does not fit, the headspace is acceptable. If it does fit, consult a gunsmith for further evaluation.

4. PostUse Care:

- Clean the gauge after use and store it in a safe, dry place.
- Keep the gauge in its original packaging or a protective case to prevent damage.

Disposal Instructions

- Dispose of the gauge in accordance with local regulations for metal products.
- If the gauge is damaged beyond repair, ensure it is disposed of in a manner that prevents accidental use.
- Do not throw the gauge in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries or support regarding the HEADSPACE GAUGES, please refer to the contact details provided on the product packaging or visit the manufacturer's website.

By following these safety guidelines and instructions, you can ensure safe and effective use of the HEADSPACE GAUGES. Always prioritize safety when handling firearms and associated tools. Thank you for your attention to these important safety measures.
