## Absolutely Essential For Accurate, Safe, Chamber Work

FORSTER SAAMI RIMLESS HEADSPACE GAUGES The Forster Headspace Gauges are precision instruments designed to help gunsmiths and firearm enthusiasts accurately measure the headspace of rifle chambers, ensuring firearms operate safely and reliably. Proper headspace is critical for preventing malfunctions such as misfires, case ruptures, or excessive wear, which can compromise both performance and safety. These gauges are indispensable when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Engineering: Machined to exacting SAAMI specifications, these gauges provide accurate measurements to verify that a firearm's chamber meets industry standards. Variety of Gauges: Available in "Go," "No-Go," and "Field" configurations, each gauge serves a specific purpose: Go Gauge: Confirms the minimum chamber size, ensuring the firearm will chamber and fire a cartridge safely. No-Go Gauge: Checks that the chamber does not exceed the maximum recommended headspace; the bolt should not close on this gauge. Field Gauge: Used to determine the absolute maximum safe headspace; if the bolt closes on this gauge, the firearm is considered unsafe to shoot. Durable Construction: Crafted from high-grade steel and hardened for longevity, these gauges withstand repeated use without compromising accuracy. Specifications: Material: Hardened steel Dimensions: Specific to each caliber and gauge type Compliance: Manufactured to SAAMI specifications Customer Insights: Customers commend the Forster Headspace Gauges for their precision and reliability. The clear differentiation between "Go," "No-Go," and "Field" gauges allows users to perform comprehensive headspace assessments confidently. The durable construction ensures that the gauges maintain their integrity and accuracy over time, even with frequent use. Users also appreciate the wide range of calibers available, making it easy to find the appropriate gauge for various firearms. Incorporating the Forster Headspace Gauges into your gunsmithing toolkit ensures that your rifle chambers are within safe operational limits, enhancing both safety and performance.

## Attributes

- Name: [FORSTER PRODUCTS, INC. BELTED MAGNUM GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 319418250
- Mfr. No.: BG300MG
- Cartridge: 264 Winchester Magnum, 6.5mm Remington Magnum, 257 STW (Shooting Times Westerner), 257 Weatherby Magnum, 6.5 STW, 270 Weatherby Magnum, 7 mm Remington Magnum, 7 mm Weatherby Magnum, 300 H&H Magnum, 300 Weatherby Magnum, CKK
- Colour: Steel
- Height: 0.5"
- Length: 1.5"

# Safety Instruction Guide for Headspace Gauges

## Introduction

Thank you for choosing the Forster Products, Inc. Belted Magnum Go Gauge Headspace Gauge Steel. This tool is designed to ensure the safe and accurate measurement of the chamber length of your rifle. Proper use of this gauge is essential for chambering a new barrel and for checking the headspace of used firearms. This guide provides important safety instructions and guidelines to help you use this product safely and effectively.

## General Safety Guidelines

- Ensure that the gauge is used only for its intended purpose, which is to measure headspace in firearms.
- Always follow the manufacturer's instructions and guidelines when using the gauge.
- Keep the gauge out of reach of children and vulnerable individuals.
- Inspect the gauge for any signs of damage before use. Do not use a damaged gauge.
- Do not attempt to modify or alter the gauge in any way.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when using firearms or measuring tools.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Before using the gauge, ensure that the firearm is unloaded and pointed in a safe direction.
- Use the gauge only in a welllit and safe environment to avoid accidents.
- When checking headspace, follow the specific instructions for your firearm and gauge type.
- Do not exceed the recommended specifications for your firearm.
- Be cautious of the potential risks associated with improper headspace, including firearm malfunction or failure.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and safe to handle.
- Gather all necessary tools and equipment, including the headspace gauge.

### 2. Using the Gauge:

- Insert the gauge into the chamber of the firearm.
- Gently close the bolt to check for fit.
- If the gauge does not fit properly, refer to your firearm's specifications to determine the appropriate action.

### 3. Checking Headspace:

- Use the NoGo gauge to determine if the chamber is within safe limits.
- If the NoGo gauge fits, the chamber is too long and requires adjustment.
- If the gauge does not fit, the chamber is within safe specifications.

### 4. PostUsage:

- Remove the gauge from the chamber carefully.
- Clean the gauge after use to maintain its accuracy and longevity.
- Store the gauge in a safe and secure location, away from children and unauthorized users.

## **Disposal Instructions**

- Dispose of the gauge in accordance with local regulations.
- If the gauge is damaged or no longer usable, do not attempt to repair it. Instead, follow local guidelines for safe disposal of metal products.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the use of this product, please consult the manufacturer's website or customer service resources. Ensure you have the product's identification information available for reference.

By following these safety instructions, you can help ensure the safe and effective use of your Forster Products, Inc. Belted Magnum Go Gauge Headspace Gauge Steel. Always prioritize safety and compliance with local regulations when handling firearms and related tools.
