Safety Instruction Guide for .0025" Stainless Steel Brushing Wheels

Introduction

Thank you for choosing the .0025" Stainless Steel Brushing Wheels by Grobet File Co. of America Inc. This guide provides essential safety instructions to ensure the safe use of these brushing wheels. Please read this document carefully before using the product.

General Safety Guidelines

- Always use the brushing wheels in accordance with the manufacturer's instructions.
- Ensure that the product is suitable for your intended use.
- Regularly inspect the brushing wheels for any signs of wear or damage before each use.
- Keep the product out of reach of children and vulnerable individuals.
- If you notice any unusual behavior or performance, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Do not exceed the maximum RPM of 3500 to avoid potential hazards.
- Use appropriate personal protective equipment (PPE), such as safety goggles and gloves, to protect against debris and sharp wire ends.
- Ensure that the work area is clean and free from any obstacles that could cause accidents.
- Avoid using the brushing wheels on materials that may cause excessive wear or damage to the product.
- Do not force the brushing wheels into materials; let the tool do the work.
- Be aware of your surroundings and ensure that others are at a safe distance while using the product.

Instructions for Installation and Usage

1. Installation:

- Ensure that the tool you are using is compatible with the brushing wheels.
- Insert the brushing wheel into the tool's chuck or holder, ensuring it is securely fitted.
- For the 2" diameter wood center, drill to fit if necessary.
- Check that the brushing wheel is properly aligned and that there are no obstructions.

2. Usage:

- Start the tool at a low speed to ensure stability.
- Gradually increase the speed to the desired RPM, ensuring that you do not exceed 3500 RPM.
- Use the brushing wheels gently to card between coats when rust bluing or using the Hot Water Method with Dicropan IM Bluing Solution.
- Do not apply excessive pressure; allow the soft wire wheels to do the work.
- After use, turn off the tool and allow it to come to a complete stop before removing the brushing wheel.

Disposal Instructions

- Dispose of any worn or damaged brushing wheels in accordance with local regulations.
- Do not dispose of the product in household waste. Instead, check for local recycling programs that accept metal products.
- Ensure that any discarded materials do not pose a hazard to the environment or public safety.

Contact Information for Further Support

For any inquiries regarding safety concerns or product information, please contact the manufacturer directly through the provided contact channels.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of the .0025" Stainless Steel Brushing Wheels. Always prioritize safety and stay informed about the proper handling and maintenance of your tools. Thank you for your attention to these guidelines.
