

S&W CYLINDER & HAND WINDOW FILES - GROBET FILE CO. OF AMERICA INC CYLINDER STOP WINDOW FILE

[Gunsmith Tools](#) > [Handgun Tools](#) > [Hones & Files](#)

Only Files Available To Do This Job Right

When replacing the cylinder stop or hand in a S&W revolver, you may have to open up the "window" in the frame to accept the new part. These double-ended, offset files, will do the job.

Safety Instruction Guide for S&W Cylinder & Hand Window Files

Introduction

Thank you for choosing the S&W Cylinder & Hand Window Files by Grobet File Co. of America Inc. This guide provides essential safety instructions and information to ensure the safe use of this product. Please read this manual carefully before using the files to avoid accidents and ensure proper handling.

General Safety Guidelines

- Always inspect the files for damage or defects before use. Do not use if damaged.
- Keep files out of reach of children and vulnerable individuals.
- Use the files only for their intended purpose as specified in this guide.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the files.
- Store files in a safe and dry place to prevent injury and maintain their condition.
- Follow local regulations for the disposal of tools and materials.

Specific Safety Precautions for Use

- Ensure a stable working surface when using the files to prevent slips or accidents.
- Avoid applying excessive force while filing; let the tool do the work to prevent breakage or injury.
- Use the files in a wellventilated area to avoid inhaling dust or debris.
- Do not use the files on materials for which they are not designed.
- Be cautious of sharp edges and points when handling the files.
- Always keep your hands clear of the filing area to avoid injury.

Instructions for Installation and Usage

Installation

- Identify the part that needs replacement in your S&W revolver.
- If necessary, open the "window" in the frame to accommodate the new part.
- Use the Cylinder Stop File (6" long) for the cylinder stop and the Hand Window File (6¾" long) for the hand window.
- Select the appropriate end of the Hand Window File based on your frame type (J Frame or K, L, N frames).

Usage

- Hold the file firmly by the handle, ensuring a comfortable grip.
- Position the file at the desired angle against the material you are working on.
- Apply gentle pressure while moving the file back and forth in a controlled manner.
- Regularly check the progress to ensure you are achieving the desired result without overfiling.
- After use, clean the files to remove any debris or residue.

Disposal Instructions

- Dispose of the files in accordance with local waste management regulations.
- Do not throw away in regular household waste if they are damaged or broken.
- If you no longer need the files, consider recycling them if possible.

Contact Information for Further Support

For any safety inquiries or additional support regarding the S&W Cylinder & Hand Window Files, please refer to the contact information provided by the retailer or manufacturer. You may also check for safety recalls or updates on the EU's Safety Gate platform.

By following these safety instructions, you can ensure a safe and effective experience while using the S&W Cylinder & Hand Window Files. Thank you for your attention to safety!
