# Safety Instruction Guide for SHORT, PILOTED BARREL LINER DRILL

## Introduction

Thank you for choosing the Brownells Short, Piloted Barrel Liner Drill. This guide provides essential safety instructions and information to ensure the safe use of this product. Please read this guide carefully before using the drill.

## General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean and free of hazards.
- Keep the drill and its accessories out of reach of children and vulnerable individuals.
- Wear appropriate personal protective equipment (PPE) such as safety goggles, gloves, and ear protection while using the drill.
- Be aware of your surroundings and ensure that no one is in the vicinity of the work area during operation.
- Regularly inspect the drill for any signs of damage or wear before use. Do not use if damaged.
- Follow all local regulations and guidelines related to tool safety and usage.

## Specific Safety Precautions for Use

- Ensure that the drill is securely clamped to prevent movement during operation.
- Use the drill at the recommended speed settings to avoid overheating and damaging the drill bit.
- Do not force the drill; let it work at its own pace to prevent breakage or injury.
- Avoid wearing loose clothing or jewelry that may become entangled in the drill.
- Always disconnect the drill from the power source when changing bits or making adjustments.
- If you experience any unusual noises, vibrations, or smoke, stop using the drill immediately and investigate the issue.

## Instructions for Installation and Usage

### Installation

1. Ensure the drill is unplugged before installation.
2. Select the appropriate drill bit size for your application.
3. Insert the drill bit into the chuck and tighten securely.
4. Check that the drill bit is properly aligned and stable.

### Usage

1. Position the drill over the workpiece, ensuring it is stable and secure.
2. Turn on the drill and allow it to reach full speed before making contact with the material.
3. Apply gentle pressure to guide the drill bit into the material, allowing the drill to do the work.
4. If drilling deep holes, periodically withdraw the drill to clear debris and prevent jamming.
5. Once finished, turn off the drill and allow it to come to a complete stop before removing the bit or making adjustments.

## Disposal Instructions

- Dispose of the drill and any accessories in accordance with local regulations for electronic waste.
- Do not dispose of the drill in household waste. Check for designated disposal sites in your area.
- Ensure that any hazardous materials, such as batteries or lubricants, are disposed of properly.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of this product, please reach out to your local distributor or the manufacturer directly. Ensure that you have the product details and any relevant information ready for a more efficient response.

Thank you for your attention to these safety instructions. Your safety is our priority. Enjoy using your Brownells Short, Piloted Barrel Liner Drill safely and effectively!
